About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries) .

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

“Enhance the value of customer operation through our customer need centric engineering solution”

Mission

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

Vision

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

Introduction to Cyclone Separators

KERONE is having expertise in manufacturing of various types and capacity of cyclone separators, a cyclone separator is a unit that helps in separating the solids from the air, gas and liquids without need of any filtering unit.

The cyclone separator operates on the principle of centrifugal force, typical operating steps are:

- The suspensions of a solid gas usually air is introduced tangentially at a very high velocity so that rotary movement takes place within the vessel.
- The fluid is removed from the central out let at the top.
- The rotary flow within the cyclone separator causes the particles to be acted on by centrifugal force.
- The solids are thrown out to the walls, there after it falls to the conical base and discharged out through solids outlet .
