# About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries) .

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

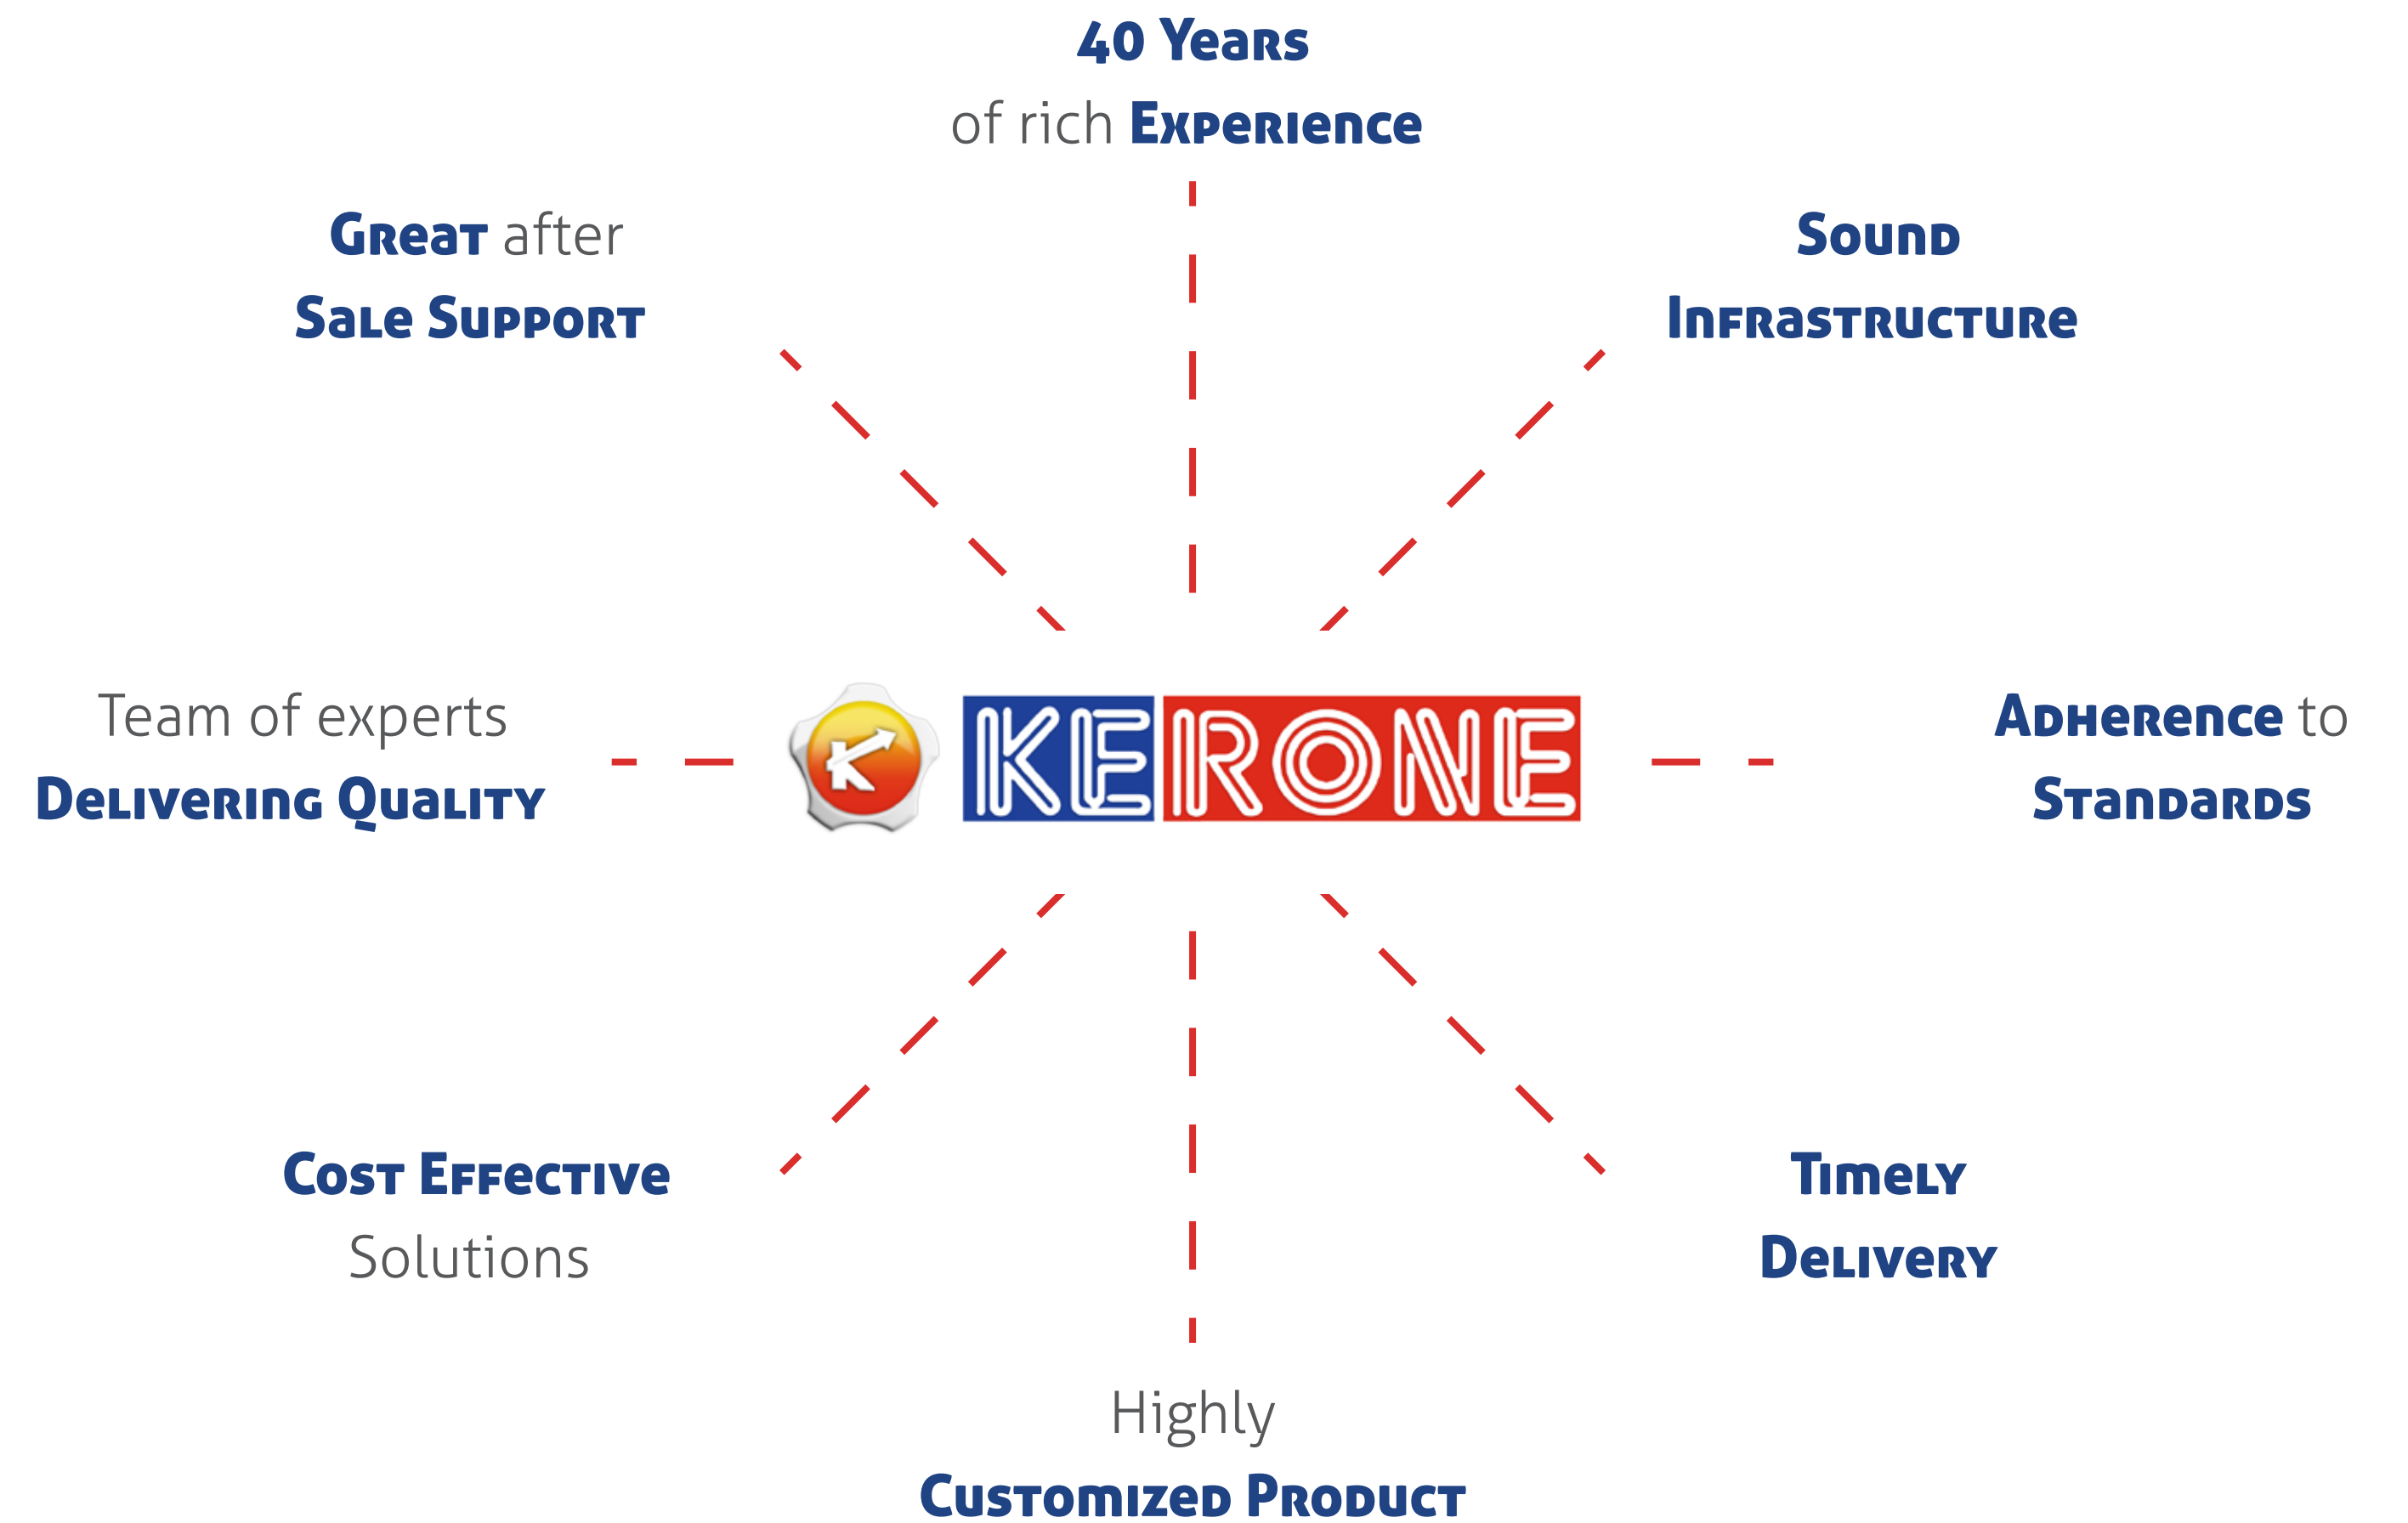

*“Enhance the value of customer operation through our customer need centric engineering solution”*

## *Mission*

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

## *Vision*

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

## Introduction to Fabric Coating Machine

To enhance and strengthen the fabrics, taps, textile products and other flexible substrates, it is mandate that some type of the coating and lamination required, coating helps the industrial products to achieve the desired level of strength, surface tension, look and feel and improve the durability. KERONE since last 40 years, with its engineering excellence helping the industries for their need of coating and laminating machineries for the tape, fabric, textile products, and other flexible substances with deep level of the customization.

Fabric coating systems utilize any from the below coating techniques: Hot melt Coating Systems, Slot Die Coating Machine, Reverse Roll Coating Machine, Knife Over Roll Coating and immersion/dip coating.

## Advantages

- Perfect uniform coating across the whole width
- Vibration free rigid doctor blade construction.
- Special arrangement to set very fine gap across the width
- Quick lifting system
- Micro adjustment individual and together left / right
- Knife on air arrangement
- Dual knife system with option of thin /thick coating
