About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries) .

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

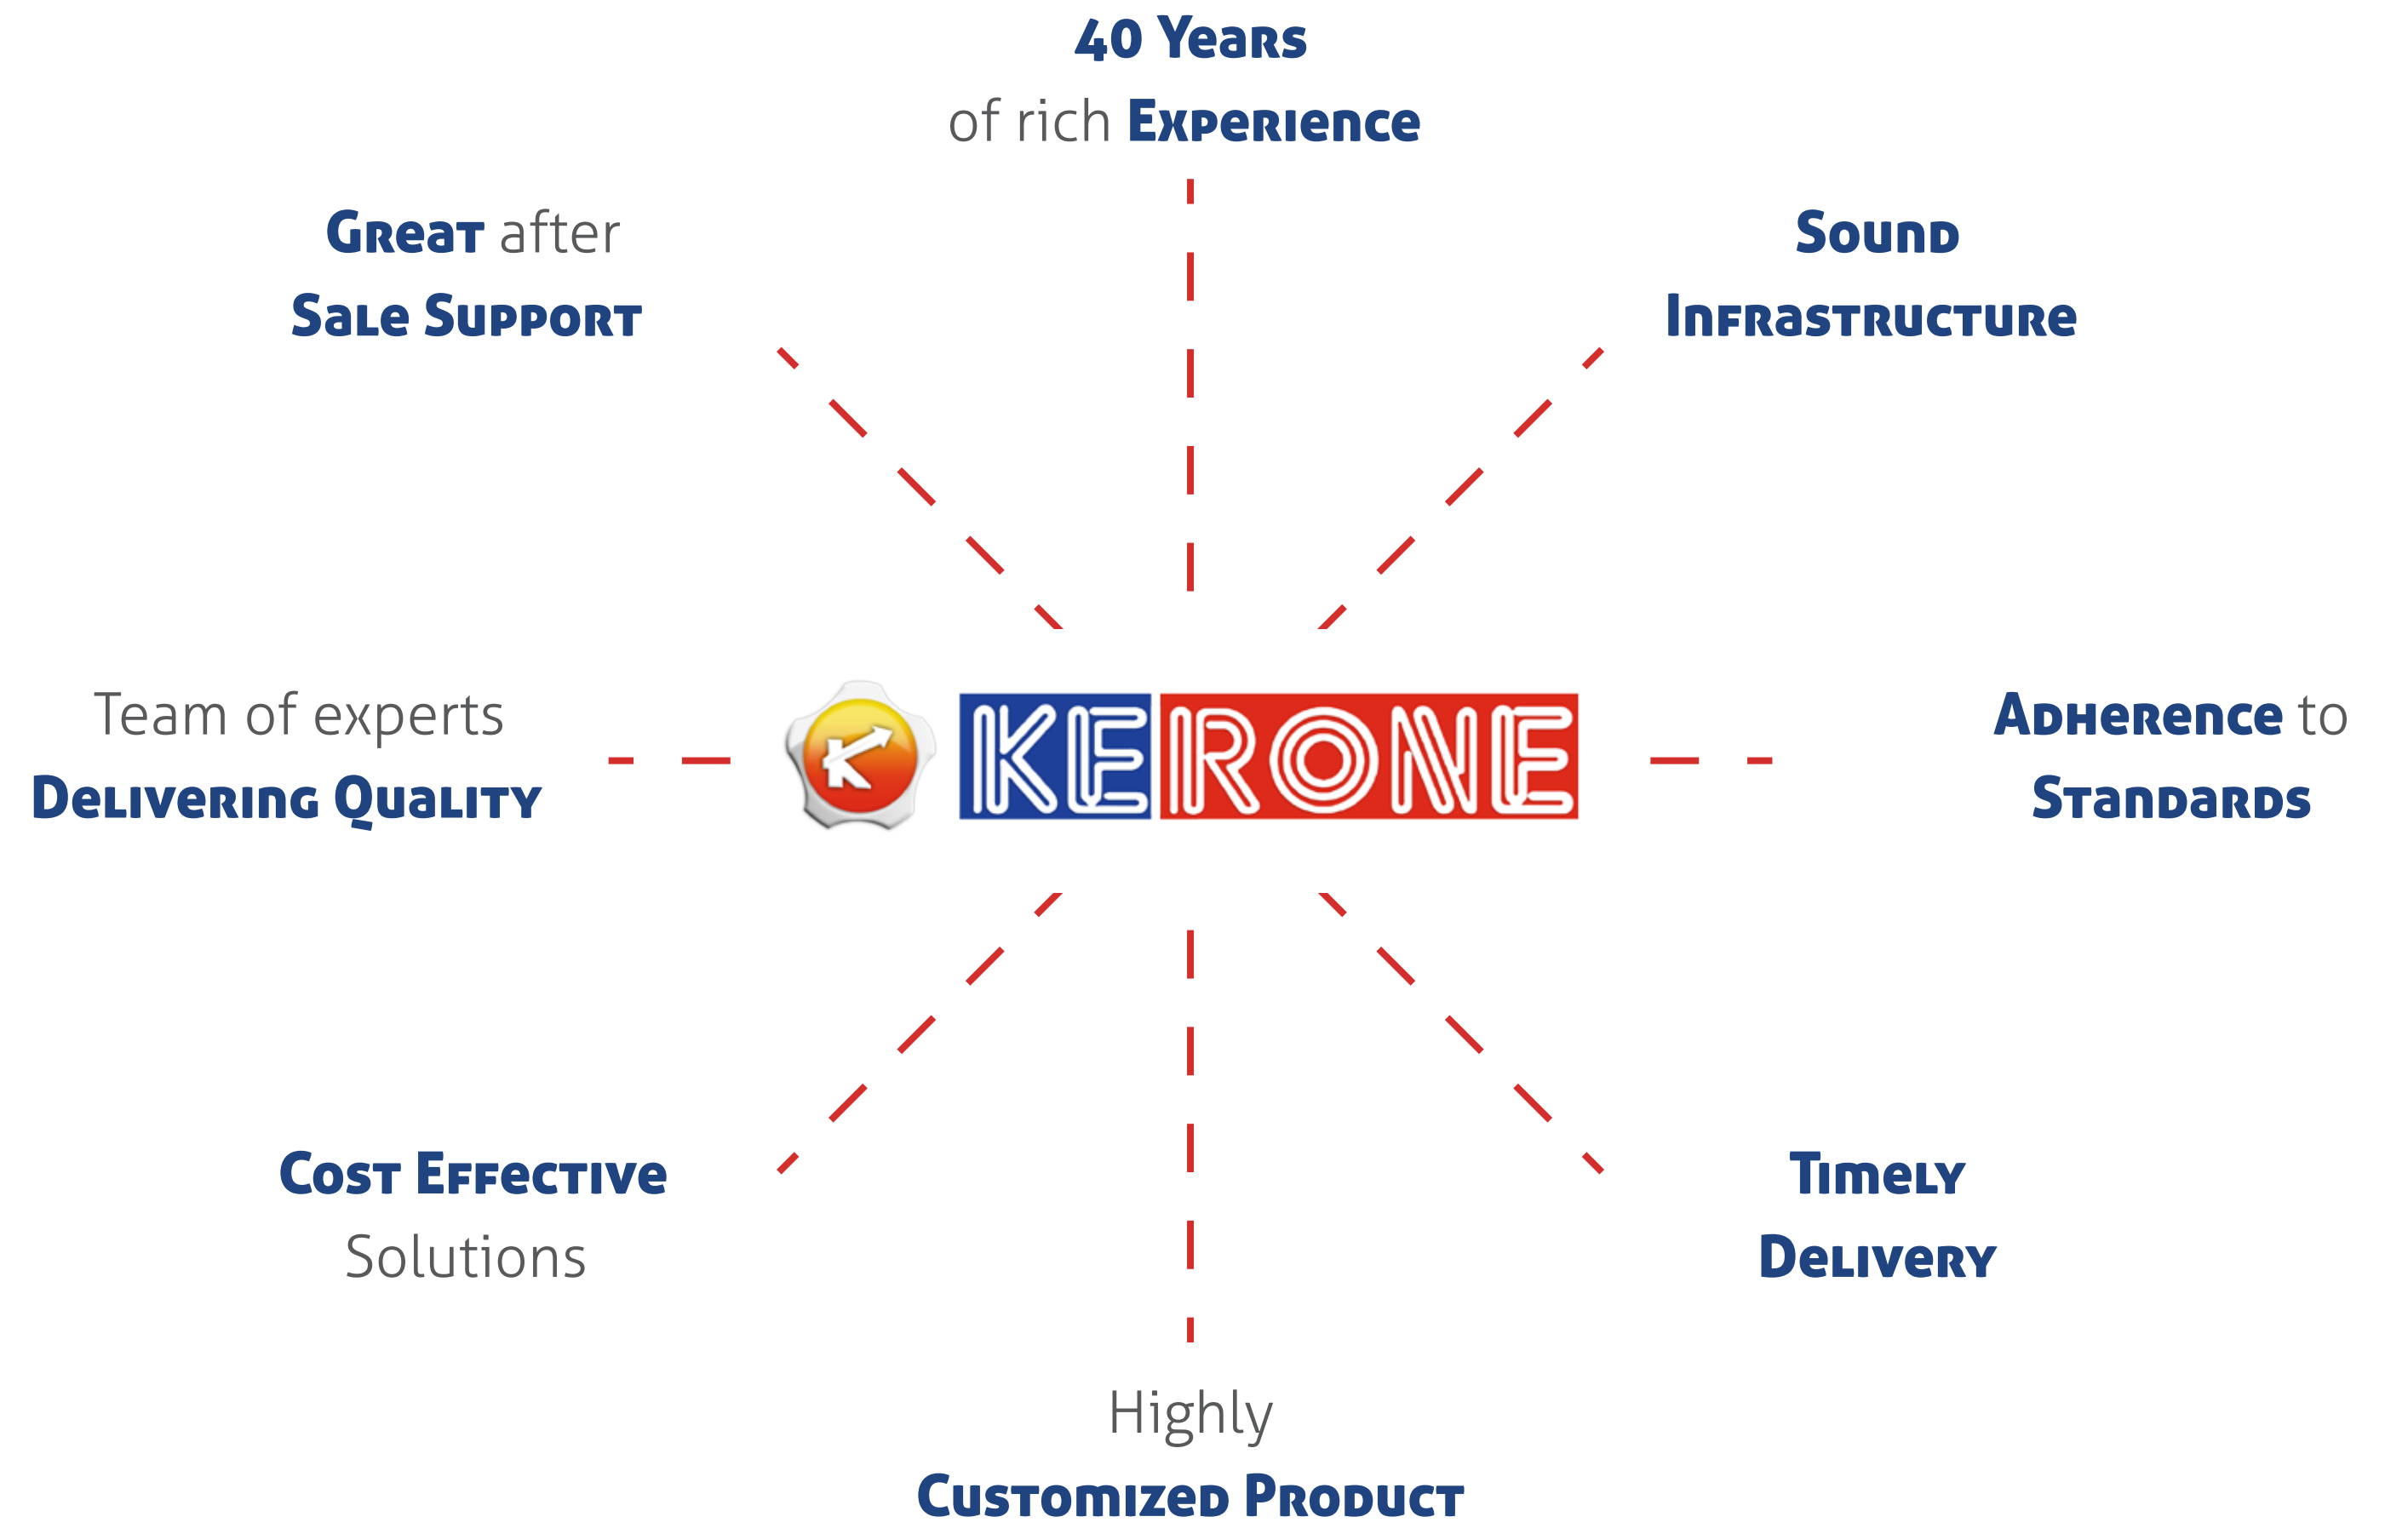

“Enhance the value of customer operation through our customer need centric engineering solution”

Mission

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

Vision

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

Introduction to

Short Wave Infrared Module

Short Wave Infrared Modules designed by Kerone are suitable product for the application of infrared technology. They are complete infrared system, ready for operation and at the same time they are comparatively less expensive. They save user design cost and time.

Modules can be regulated, controlled and ventilated individually. Its construction makes it possible to construct heating panels of any size with heater length of up to 40 mm.

Short Wave Infrared Modules are advantageous to the user while installing it to the existing application and also to the planning and project engineers.

Application

- Paint curing.
- Powder coating.
- Lacquers drying.
- Printing ink.
- Drying glaze on ceramic tiles.
- Drying Gumming Sheets.
- Drying Adhesive Tapes.

Features

- Easy integration / compact design
- Modular construction
- Fast delivery
- High power
- High efficiency
- Medium wavelengths
- Easy connection
