About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries) .

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

“Enhance the value of customer operation through our customer need centric engineering solution”

Mission

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

Vision

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

Introduction to Batching Systems

A batching system is batch operating production process, in this production occurs in sequential steps in discrete batches.

KERONE is having expertise in providing both batching and continuous processing unit, batching system process the input in discrete batched one set of equipments at a time, following are the basic steps of the batching process:

A batch raw material(s) is fed, Processing take place (for specified time period), and Outputs are removed.

Application

- Bakery Batching
- Feed Mill Applications
- Food Batching Systems
- Industrial Batching Systems
- Grain Systems Application
