About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries) .

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

“Enhance the value of customer operation through our customer need centric engineering solution”

Mission

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

Vision

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

Introduction to PLC & Automation Panel

We have our own independent division for designing and manufacturing PLC based Automation panels also electronic controller based and hardwired control and automation panels.

Every single PLC and Automation panel designed and build in KERONE is strictly as per the specifications requirement and full involvement of our clients. We design and build PLC and Automation panel for various needs, specification and type based of the clients need.

PLC & Automation panels designed and build by KERONE are of Easy to operate, user friendly interface, reliable, sustainable and having high operating life.

Features

- Longer functional life
- User friendly control panel
- Low and easy maintenance
- Dense and Rugged construction
- Quick and Easy installation
- Precisely designed and engineered
- Hassle-free functioning
- Longer service life
- High durability
- Energy and Cost efficient
- High Power saving
- Efficient performance
