

# POWDER TRANSFER SYSTEMS

Environment Friendly Engineering Solution Company

In Association with SVCH-Technologii, Moscow (Russia)

# About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries).

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

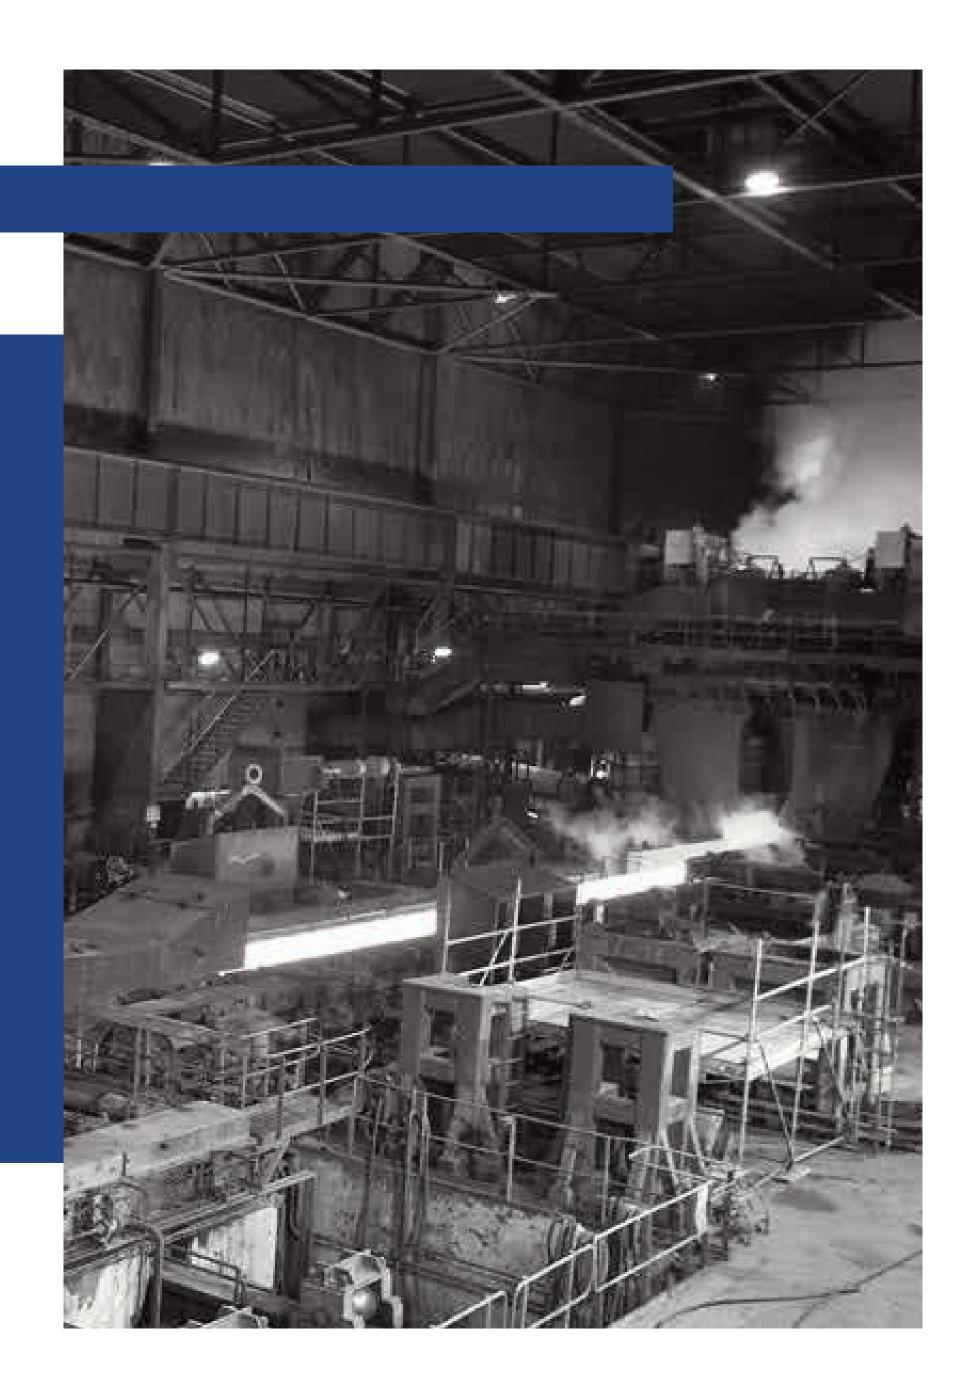

Enhance the value of customer operation through our customer need centric engineering solution

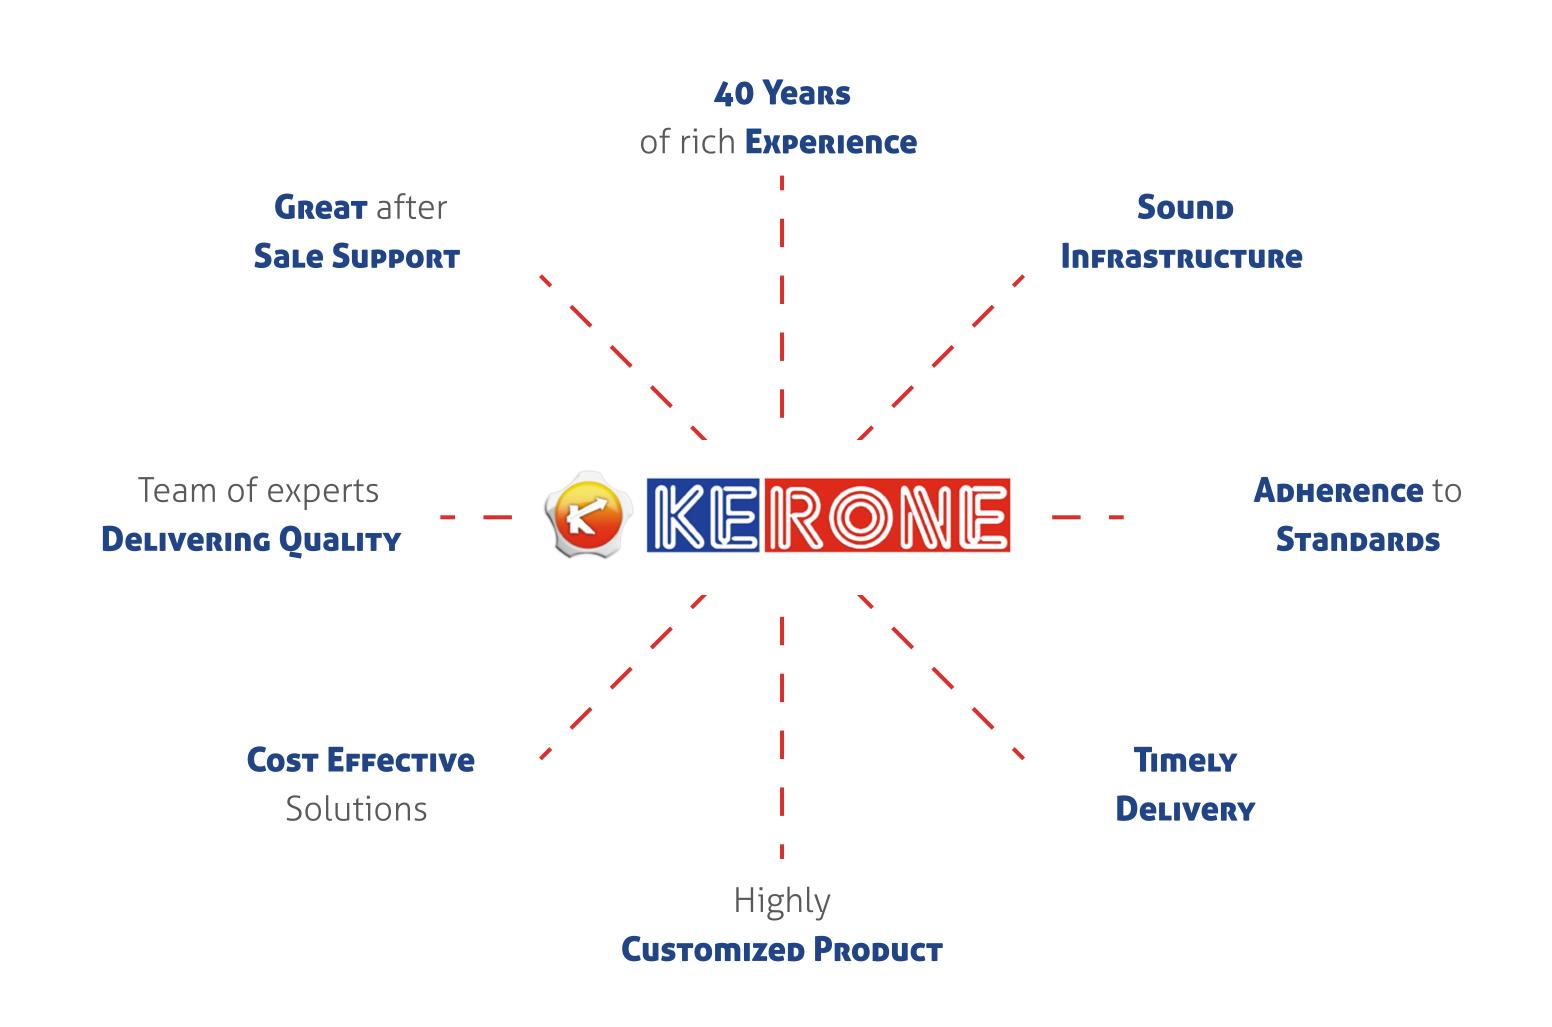

# Mission

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

# Vision

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

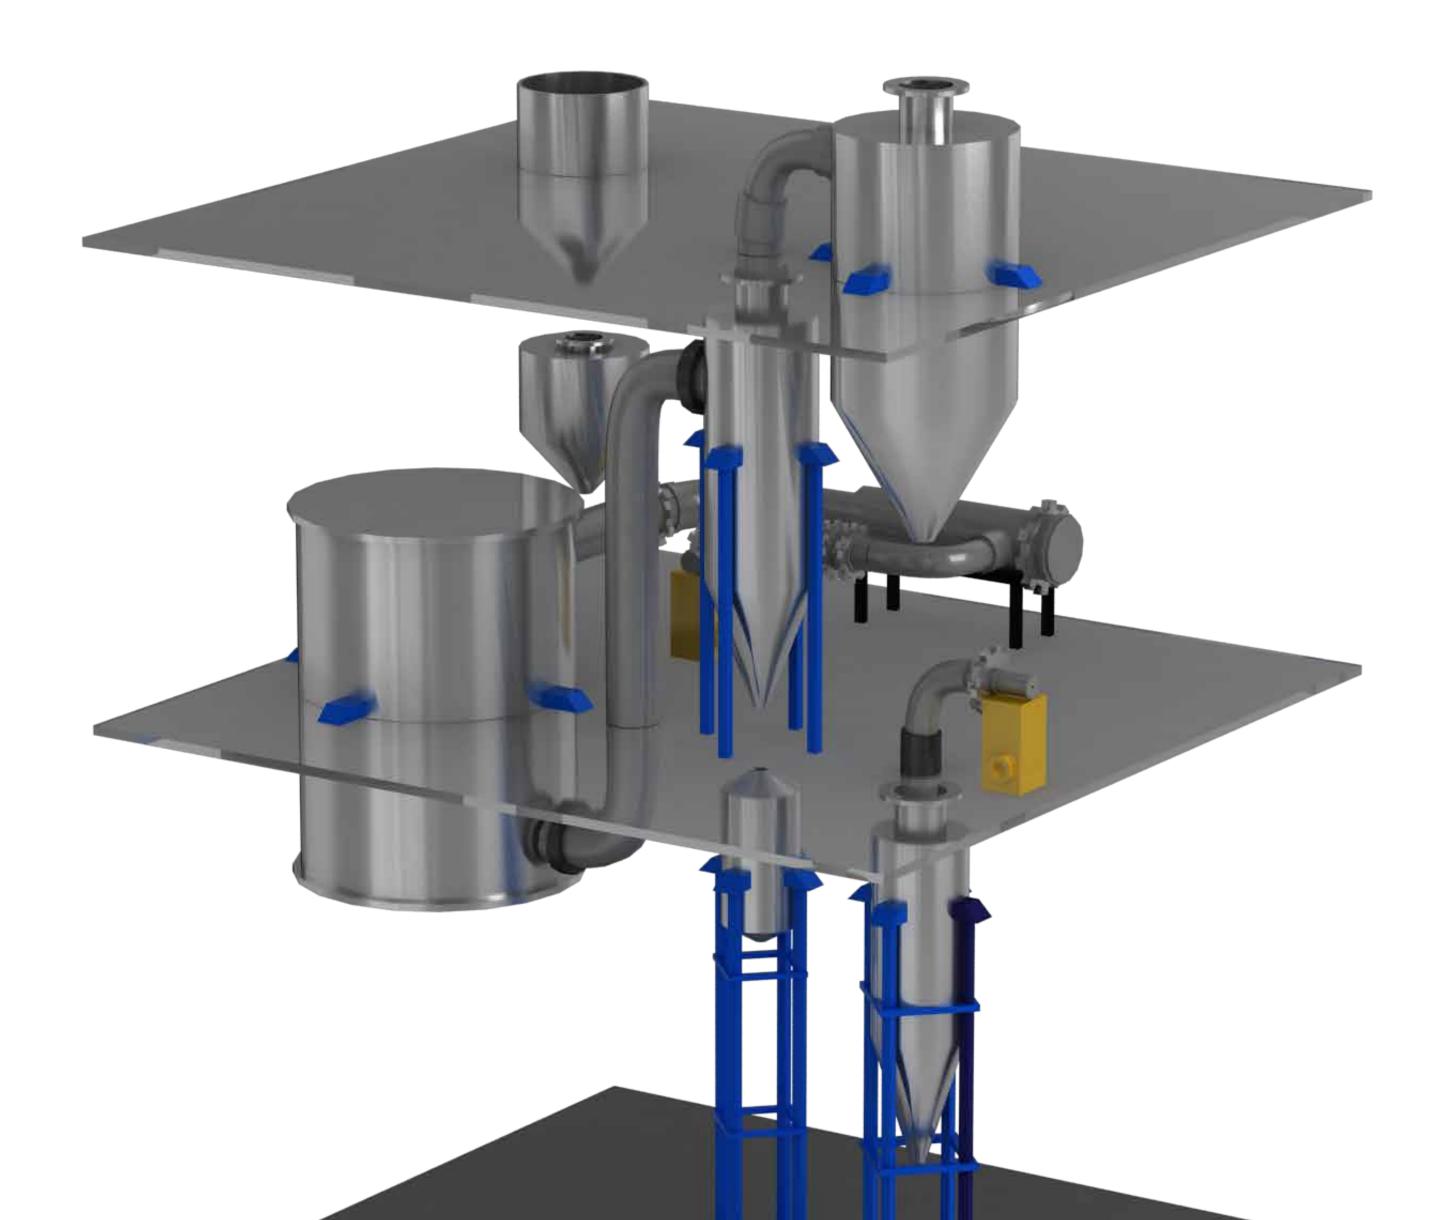

## Introduction to

# Powder Transfer Systems

Powder Transfer Systems: At KERONE, we have accommodated highly efficient powder transfer systems in process plants based on the requirements. The (PTS) Powder Transfer System is an extraordinarily efficient and dependable technique of conveying and dispensing dry and wet powders and granules.

# Main Components of Powder Transfer System:

- A vacuum conveying system utilizing Roots Blower, Modular construction equipment.
- Jet Air Wand with Air regulating Damper.
- Jet Air Wand fitted with stainless steel wire mesh to stop foreign particles entry in to process.
- Entire transfer through electro polished pipe with curvilinear bends and isolating valves both manual & pneumatically actuated
- Suitable filters pleated 5 micron in the product unloading chamber, pulse jet type for inside cleaning.
