# B.O.D INCUBATOR

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

# ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

# WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

## MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

## VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

# TRUSTED PARTNERS

## B.O.D Incubator

B.O.D Incubators, designed and manufactured by KERONE, are technologically advanced and custom-made to meet the specific incubation criteria required for various applications. These include storage of B.O.D. tests, vaccines, bacterial cultures, microorganism and plant life seed germination, serum incubation studies, and immunological work. Also known as low-temperature incubators, KERONE's B.O.D Incubators are constructed with corrosion-resistant stainless steel and fitted with high-quality materials and instruments. The double-wall exterior, made of galvanized iron (GI) with a powder coating, features a flush-fitting insulated door with a magnetic gasket. The inner chamber is crafted from 304 quality stainless steel, and the inner door is made of Plexiglas, allowing for specimen inspection without disturbing the temperature. The adjustable tray shelf positions and the placement of refrigeration evaporator, heater, and centrifugal forced air circulator in the back compartment ensure positive air flow through the incubator.

The incubators maintain an optimal temperature level through hermetically sealed compressors located below the unit. In-built safety PT-100 sensors prevent damage in case of temperature controller malfunction. For ease of use, all controls are mounted on the top of the unit, including a solid-state temperature controller with digital and PT-100 sensors. Additionally, a microprocessor controller with a cyclic digital timer can be provided as per specific orders. The B.O.D Incubators by KERONE ensure precise control of incubation and storage temperatures, making them ideal for a wide range of scientific and industrial applications.

### Features

- Providing fast and accurate results
- Microprocessor P.I.D. temperature control
- CFC Free Refrigeration systems
- Double walled construction with insulation
- Fuses are provided on every electrical line to safeguard each and every component
- Continues display of set temperature, attained temperature, time, day, date

### Advantages

- Suitable for various incubation applications
- Double-wall exterior with powder coating
- In-built safety PT-100 sensors
- Digital solid-state temperature controller
- Precise control over heating process
- Efficient air flow with back compartment components
- Optimal temperature control with sealed compressors

### Application

- Storage of B.O.D. tests
- Vaccine storage
- Bacterial culture incubation
- Microorganism incubation
- Plant life seed germination
- Serum incubation studies
- Immunological research and studies

# OUR CLIENTS

# THANK YOU

## UNIT 1

4 & 5, Marudhar Industrial Estate, Gas Godown Lane, Goddev Fatak Road, Bhayander (E), Dist. Thane - 401105. (India)

Contact Us  
+91-22 48255071,  
48255072

## UNIT 2

Plot No. B-47, Addl. Midc Anandnagar, Ambernath (E), Dist. Thane (India)- 421506

Contact Us  
+91(0251)26205  
42/43/44/45/46

## KRDC

Plot No K2, Industrial Gala F4A, D- Wing, MGN Properties, Opposite Godrej Co., Addl MIDC Anand Nagar, Ambernath (E)- 421506 (India)
