# ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

# WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

## MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

## VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

## Batch Ovens

Batch ovens are indispensable thermal processing equipment utilized across various industries to provide optimal heat treatment to a wide range of products. These ovens excel in handling batch processes, allowing manufacturers to treat multiple products simultaneously with consistent high quality results. Offering individually tailored temperature and humidity control, batch ovens ensure uniform heating of every product, optimizing production efficiency. They find applications in curing, drying, baking, and ageing operations, streamlining production processes and boosting productivity.

Equipped with advanced features such as programmable controllers and accurate sensors, batch ovens prioritize operator safety while delivering precise heating performance. Their versatility and effectiveness make them widely employed in industries like food processing, aerospace, electronics, and pharmaceuticals. KERONE's custom-designed infrared batch ovens leverage high-quality infrared emitters to ensure energy efficiency and reliable batch processing, making them a sound investment for modern industrial processes.

## Features

- Temperature Control
- Uniform Heating
- Programmable Controllers
- Airflow Systems
- Material Handling Systems
- Energy Efficiency Features
- Compliance with Standards
- Ease of Maintenance
- Customizable Sizes and Configurations

## Advantages

- Durable Construction
- Enhanced Safety Features
- Space Optimization
- Reduced Labor Requirements
- Consistent Quality Output
- Customizable Features
- Precision Temperature Control
- Flexibility in Production Scheduling

## Application

- Curing, Drying and Baking
- Aging and Heat Treatment
- Sterilization
- Plasticizing and Preheating
- Powder Coating Curing
- Paint Curing
- Laboratory Testing
- Heat-Shrink Processes
