BATCHING SYSTEMS & PLANTS

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

TRUSTED PARTNERS

Batching Systems and Plants

Batching systems and plants are integral components in industries requiring precise mixing of raw materials, particularly in construction and manufacturing. These systems are designed to automate the measurement and mixing of ingredients to ensure consistent quality and efficiency. In the concrete industry, for example, batching plants mix cement, water, aggregates, and additives to produce concrete with exact specifications. Advanced batching systems can control and monitor each stage of the process, reducing errors and increasing productivity. They offer benefits such as enhanced precision, reduced waste, and improved product consistency. Additionally, modern batching plants are equipped with digital interfaces and software for real-time monitoring and data analysis, further optimizing the production process. Whether for concrete, pharmaceuticals, or food production, batching systems and plants play a crucial role in maintaining high standards and meeting industry demands.

KERONE is having expertise in providing both batching and continuous processing unit, batching system process the input in discrete batched one set of equipments at a time, the batching process comprises of 3 basic steps, namely ;

Feeding the raw material

Processing it into the final product or a by-product

Receiving the final output

Features

- Batching of dry & liquid materials
- Can process micro as well as bulk quantities
- Stainless Steel enclosures
- Unlimited no. of raw materials can be processed
- Hassle free functions
- Digitally automated
- Tolerance control for accurate weights and batch integrity

Advantages

- Efficient Resource Utilization
- Consistency of Products
- Reduced Cycle Times
- Precision and Accuracy
- Improved Process Control
- Automation Integration
- Streamlined Logistics
- Enhanced Traceability
- Flexibility in Production Planning

Application

- Grain Systems Application
- Feed Mill Applications
- Bakery Batching
- Food Batching Systems
- Industrial Batching Systems

OUR CLIENTS

THANK YOU

UNIT 1

4 & 5, Marudhar Industrial Estate, Gas Godown Lane, Goddev Fatak Road, Bhayander (E), Dist. Thane - 401105. (India)
