

CIP & SIP SYSTEMS

48⁺ Years
Of experience

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

TRUSTED PARTNERS

Cip & Sip Systems

Clean-in-Place (CIP) and Sterilize-in-Place (SIP) systems are vital components in industries where stringent hygiene standards are paramount, such as pharmaceuticals, food and beverage, and biotechnology. These systems automate the cleaning and sterilization processes of equipment and piping systems without disassembly, ensuring product quality, regulatory compliance, and operational efficiency.

CIP systems use specialized cleaning solutions to remove residues and contaminants, while SIP systems utilize steam or other sterilizing agents to eliminate microorganisms. By incorporating CIP/SIP systems, industries can maintain aseptic conditions, prevent cross-contamination, and uphold product integrity throughout manufacturing processes.

Features

- Streamlines cleaning and sterilization processes without manual intervention.
- Reduces downtime by cleaning and sterilizing equipment in place.
- Ensures high levels of cleanliness and sterility to meet industry standards.
- Compatible with various equipment types and configurations.
- Facilitates validation processes to confirm cleaning and sterilization effectiveness.

- Corrosion free
- Built with the high quality stainless steel material or special Alloys.
- Enhances worker safety by minimizing exposure to cleaning agents and steam.
- Helps industries adhere to regulatory requirements for sanitation and sterilization.

Advantages

- Streamlines cleaning and sterilization processes for enhanced productivity.
- Consistency and Reproducibility
- Reduced Cross-Contamination Risk
- Reduces labor costs associated with manual cleaning and sterilization.
- Enhanced Product Quality
- Facilitates adherence to strict industry hygiene standards.
- Extended Equipment Lifespan

Application

- Brewing Industry
- Biotechnology
- Food and Beverage Production
- Medical Device Production
- Dairy Processing
- Cosmetic Manufacturing
- Research Laboratories

Technical specifications

Cleaning recycles single circuit, double circuit, three circuits

Heating method steam heating, electrical heating

CIP tanks alkaline tank, acid tank, hot water tank, clean water tank

Power 220V/380V(customized)

Volume	Dimension(Dxh)	Total Height	Insulate	Inlet&Outlet
100L	550*550	1350 mm	50 mm	38mm
500L	840*1000	2350 mm	50 mm	38mm
1000L	1060*1220	2750 mm	50 mm	51mm
2000L	1340*1500	3000mm	50 mm	51mm
3000L	1410*2000	3600mm	50 mm	51mm

Can be customized according to user requirements.
