

CERAMIC FLAT INFRARED HEATERS

48⁺ Years
Of experience

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

TRUSTED PARTNERS

Ceramic Flat Infrared Heaters

Ceramic Flat Infrared Heaters represent the latest advancement in heating technology, offering unparalleled warmth and comfort while eliminating pollution. Serving as a complete replacement for traditional heating systems, they negate the need for burning fuels like coal or gas, ensuring a cleaner environment. These modern heaters, exemplified by ceramic flat infrared models, utilize cutting-edge ceramic technology to emit infrared rays that directly warm targeted areas without heating the surrounding air. With their sleek, low-profile design, ceramic flat infrared heaters seamlessly blend into any setting, be it commercial, industrial, or domestic. One of their primary advantages lies in their outstanding energy efficiency, as they minimize heat loss and utilize less energy by applying heat directly to objects and people.

Additionally, their adaptability allows for tailored heating solutions, catering to specific needs and spaces. Operating silently and safely, ceramic flat infrared heaters offer peace of mind with features like tip-over switches and overheating protection. Their contemporary design further enhances their appeal, complementing any décor with options for customizable settings. In essence, ceramic flat infrared heaters redefine indoor heating with their innovative technology, offering a reliable, efficient, and aesthetically pleasing solution for enhancing comfort and reducing heating expenses.

Features

- Advanced ceramic technology
- Energy efficiency
- Sleek design
- Customizable settings
- Quiet operation
- Durability
- Pollution-free
- Comfortable warmth

Advantages

- Energy efficiency
- Environmentally friendly
- Targeted heating
- Versatility
- Safety
- Improved comfort
- Silent operation
- Sleek design
- Customizable settings

Application

- Thermoforming
- Vacuum Forming
- Shrink Wrapping/ Fitting
- Mold Heating
- Drying Applications
- Paint & Powder Industrial
- Outdoor heating

OUR CLIENTS

THANK YOU

UNIT 1

4 & 5, Marudhar Industrial Estate, Gas Godown Lane, Goddev Fatak Road, Bhayander (E), Dist. Thane - 401105. (India)
