

48⁺ Years
Of experience

COLD PLASMA & NON THERMAL PLASMA FOR FOOD PRESERVATION

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

TRUSTED PARTNERS

Cold Plasma & Non-Thermal Plasma For Food Preservation

Cold plasma technology and non-thermal plasma are transforming food preservation practices by leveraging ionized gases and energetic particles to disinfect and extend the shelf life of perishable items. Cold plasma, characterized by its low-temperature operation, effectively cleans food surfaces without compromising taste, texture, or nutritional value, making it an eco-friendly alternative to chemical disinfectants.

On the other hand, non-thermal plasma utilizes energetic particles to eradicate microorganisms from packed foods, inhibiting spoilage and extending freshness without subjecting the products to high temperatures. These innovative technologies not only enhance food safety by eliminating pathogens but also contribute to minimizing waste and preserving nutritional content, thereby offering sustainable solutions for the food industry's evolving needs.

Features

- Pathogen Elimination
- Quality Preservation
- Low-Temperature Operation
- Reduced Chemical Usage
- Inhibits microbial growth, prolonging the freshness of packed foods.

- Safe and Sustainable
- Economic Viability
- Minimal Nutritional Impact
- Innovative Technology

Advantages

- Effective Pathogen Control
- Keeps food fresh longer
- Preserves Food Quality
- Reduces waste and improves profits
- Non-thermal process, gentle on delicate foods
- Low-Temperature Operation
- Reduced Chemical Usage
- Provides fresh, safe, and minimally processed options

Application

- Surface Disinfection
- Packaged Food Preservation
- Decontamination
- Bakery and Dairy Products
- Ready-to-Eat Foods
- Food Manufacturing
- Research and Development
- Innovative Food Industry Solutions

OUR CLIENTS

THANK YOU

UNIT 1

4 & 5, Marudhar Industrial Estate, Gas Godown Lane, Goddev Fatak Road, Bhayander (E), Dist. Thane - 401105. (India)
