COLD PLASMA FOR FOOD STERILIZATION

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

TRUSTED PARTNERS

Cold Plasma For Food Sterilization

Cold plasma technology represents a groundbreaking advancement in food sterilization, ensuring unparalleled levels of quality and safety within the food sector. By employing cold plasma, food surfaces can be effectively cleansed of harmful bacteria, pathogens, and contaminants without compromising their flavor, texture, or nutritional value. The non-thermal nature of cold plasma makes it exceptionally gentle on food products, rendering it an ideal choice for delicate items such as dairy products, fruits, and vegetables.

This innovative method not only ensures the elimination of potentially harmful agents but also extends the shelf life of perishable foods, contributing to improved food preservation practices and overall consumer satisfaction. With its ability to maintain food quality while enhancing safety standards, cold plasma technology emerges as a pivotal solution in modern food processing and preservation techniques.

Features

- Extends shelf life of perishable foods
- Groundbreaking method for food sterilization
- Ensures highest levels of quality and safety
- Safely eliminates bacteria, pathogens, and pollutants

- Non-thermal and gentle on delicate foods
- Ideal for dairy products, fruits, and veg.
- Extends shelf life of perishable foods
- Safely eliminates bacteria, pathogens, and pollutants

Advantages

- Ensures food safety by eliminating bacteria and pathogens
- Preserves food flavor, texture, and nutritional value
- Non-thermal process, gentle on delicate foods
- Extends shelf life of perishable goods
- Reduces need for chemical sterilizers
- Enhances overall food quality and consumer satisfaction.

Application

- Sterilization of dairy products
- Sterilization of fruits and vegetables
- Treatment of meat and poultry
- Processing of seafood
- Sterilization of packaged food products
- Treatment of ready-to-eat meals
- Application in food packaging materials
- Treatment of food contact surfaces

OUR CLIENTS

THANK YOU
