COLD PLASMA FOR STERILIZATION

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

TRUSTED PARTNERS

Cold Plasma For Sterilization

Cold plasma sterilization, a modern method using ionized gas to destroy microorganisms while preserving material integrity, offers innovative solutions for various sterilization requirements. Our cutting-edge Cold Plasma technology provides dependable sterilization solutions tailored for laboratories, pharmaceutical firms, healthcare facilities, and beyond. Harnessing the power of ionized gas, our technology efficiently eradicates harmful pathogens without compromising the structural or functional properties of the sterilized materials.

Its versatility makes it a preferred choice for medical instruments, laboratory equipment, and pharmaceutical products, ensuring thorough sterilization without heat or harmful chemicals. Prioritizing safety, efficiency, and reliability, our Cold Plasma solutions offer clients peace of mind knowing their sterilization needs are met with precision and care, ushering in the future of sterilization.

Features

- Utilizes ionized gas to destroy microorganisms
- Preserves material integrity during sterilization process
- Ideal for laboratories, pharmaceutical firms, healthcare facilities, and more
- Cutting-edge technology for dependable sterilization solutions

- Does not rely on heat or harmful chemicals
- Prioritizes safety, efficiency, and reliability
- Offers precise and thorough sterilization capabilities
- Represents the future of sterilization technology.
- Suitable for medical instruments, laboratory equipment, and pharmaceutical products

Advantages

- Destroys microorganisms efficiently.
- Does not compromise the quality of sterilized items.
- Environmentally friendly
- Saves money compared to other sterilization methods.
- Works without generating excessive heat.
- Reduced risk of contamination
- Offers quick turnaround times.
- Minimization of Product Degradation
- Suitable for various industries, including healthcare, pharmaceuticals, and laboratories.

Application

- Laboratory equipment sterilization
- Medical instrument sterilization
- Dental instrument sterilization
- Pharmaceutical product sterilization
- Veterinary instrument sterilization
- Food and beverage processing equipment sterilization

OUR CLIENTS

THANK YOU

UNIT 1

4 & 5, Marudhar Industrial Estate, Gas Godown Lane, Goddev Fatak Road, Bhayander (E), Dist. Thane - 401105. (India)
