# CONVEYOR HEATING SYSTEM

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

# ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

# WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

## MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

## VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

# TRUSTED PARTNERS

## Conveyor Heating System

Conveyor heating systems represent a pinnacle of industrial innovation, seamlessly integrating automated material handling with precise heat treatment procedures. These systems are meticulously engineered to meet the dynamic demands of modern industries, optimizing productivity and reliability. Equipped with highly effective temperature control capabilities, they effortlessly adapt to diverse production line needs, ensuring consistent heating outcomes for a wide variety of materials. Moreover, their energy-efficient design not only reduces operational costs but also promotes environmental sustainability, making them a preferred choice for forward-thinking enterprises.

The versatility of conveyor heating systems extends beyond temperature control, offering customizable features to meet specific manufacturing requirements. From conveyor speed adjustments to programmable controls, operators have the flexibility to tailor system settings for each production run. This adaptability, combined with the ability to handle a broad range of thermal processing applications, including annealing, curing, drying, and sterilizing, underscores the indispensability of conveyor heating systems across various industries. As manufacturers strive for greater efficiency and product quality, these systems stand as indispensable assets, facilitating seamless production processes and driving business success.

### Features

- Precise and uniform heating
- Effective temperature control
- Energy-efficient design
- Customized heating solutions
- Versatile oven designs

- Suitable for diverse industries
- Ensures consistent heating outcomes
- Handles multiple thermal processing applications

### Advantages

- Ensures uniform heating for diverse materials
- Easily adjustable for varying production needs
- Consumes less electricity compared to traditional systems.
- Available in various configurations to suit specific applications.
- Utilizes infrared, radiant, convection, or induction heating for optimal results
- Allows adjustments for conveyor speed, temperature zones, and controls.

### Application

- Manufacturing and Industrial Processes
- Pharmaceutical Industry
- Textile Industry
- Food Processing Industry
- Environmental Testing
- High end residential
- Laboratory and Research
- Electronics and Semiconductor Manufacturing

# OUR CLIENTS

# THANK YOU

## UNIT 1

4 & 5, Marudhar Industrial Estate, Gas Godown Lane, Goddev Fatak Road, Bhayander (E), Dist. Thane - 401105. (India)

Contact Us
