

48⁺ Years
Of experience

CONVEYORISED GAS INFRARED OVEN

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

TRUSTED PARTNERS

Conveyorised Gas Infrared Oven

Conveyorised Gas Infrared Ovens, with their legacy of design, development, and technical expertise, have revolutionized industrial heating, drying, and curing processes across various sectors such as automotive, aerospace, and food/electronics production. Each oven is meticulously tailored to meet specific client requirements, utilizing efficient gas firing systems and infrared technology to provide unmatched performance in drying, curing, and heating operations. By utilizing natural gas or propane as a fuel source, these ovens ensure affordability and environmental sustainability while offering precise temperature control and heating profiles.

Their modular design allows for easy integration into existing conveyor systems, optimizing efficiency and workflow across a wide range of applications including coating drying, adhesive curing, substrate preheating, and plastic annealing. With advanced safety measures and adherence to industry standards, Conveyorised Gas Infrared Ovens prioritize operator safety while delivering exceptional temperature control and customized solutions for complex heating needs.

Features

- Infrared Heating Technology
- Controlled Heating Zones
- Variable Intensity
- Temperature Control System
- Exhaust Systems
- Digital Controls and Monitoring
- Durable Construction
- Rapid Warm-Up Time
- Reduced Emissions

Advantages

- Rapid Heating and Cooling
- Precise Temperature Control
- Uniform Heating
- Compact Design, Reduced Downtime
- Reduced Emissions, Preheat Time
- Conservation of Resources
- Readily Available Infrastructure
- Customizable Heating Profiles

Application

- Industrial Curing and Drying
- Food Processing
- Metal Heat Treatment
- Plastics Industry
- Plastic Thermoforming
- Semiconductor Industry
- Building Materials Production
- Textile Drying and Curing

OUR CLIENTS

THANK YOU

UNIT 1

4 & 5, Marudhar Industrial Estate, Gas Godown Lane, Goddev Fatak Road, Bhayander (E), Dist. Thane - 401105. (India)
