

# CYCLONE SEPARATOR

**48<sup>+</sup>** Years  
Of experience

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

# ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

# WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

## MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

## VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

# TRUSTED PARTNERS

## Cyclone Separator

A cyclone separator is a device designed for the efficient removal of particulate matter from gas or air streams without the need for traditional filters. Consisting of a cylindrical upper section and a conical lower section, the cyclone utilizes centrifugal force generated by a tangentially introduced gas or air stream to create a swirling vortex. As the gas swirls downward, heavier particles are forced toward the outer walls of the cyclone, where gravity facilitates their descent into a collection chamber at the bottom.

The cleaned gas exits through an outlet at the top, making cyclone separators effective in various industries, such as manufacturing and power generation, where large volumes of air or gas need purification, and they serve as a cost-effective and simple solution for the removal of coarse particulate matter from industrial processes while minimizing the need for filter maintenance.

A cyclone separator is a unit that helps in separating the solids from the air, gas or liquids without need of any filtering unit. The cyclone separator operates on the principle of centrifugal force, its typical operating steps are:

The suspensions of a solid gas usually air is introduced tangentially at a very high velocity so that rotary movement takes place within the vessel

The fluid is removed from the central out let at the top

The rotary flow within the cyclone separator causes the particles to react by centrifugal force

The solids are thrown out to the walls, there after it falls to the conical base and discharge through solids outlet.

### Features

- Tailor made to fit your requirements
- High performance
- Highly controllable
- Very efficient
- Corrosion free
- Personalized structure design
- Built with the high quality stainless steel material or special Alloys

### Advantages

- Resistant to Abrasion
- No Consumable Parts
- Scalability
- Energy Efficiency
- Compact Size
- Low Maintenance
- High Efficiency
- Simple Design and Low Cost

### Application

- Abrasives
- Coolant mists
- Explosive media
- Fine powders
- Metalworking chips
- Various other production plant exhausts

# OUR CLIENTS

# THANK YOU

## UNIT 1

4 & 5, Marudhar Industrial Estate, Gas Godown Lane, Goddev Fatak Road, Bhayander (E), Dist. Thane - 401105. (India)

Contact Us  
+91-22 48255071,  
48255072

## UNIT 2

Plot No. B-47, Addl. Midc Anandnagar, Ambernath (E), Dist. Thane (India)- 421506

Contact Us  
+91(0251)26205  
42/43/44/45/46

## KRDC

Plot No K2, Industrial Gala F4A, D- Wing, MGN Properties, Opposite Godrej Co., Addl MIDC Anand Nagar, Ambernath (E)- 421506 (India)

Contact Us
