

# DEEP FREEZERS UPTO- 35 DEG C

**48<sup>+</sup> Years**  
*Of experience*

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

# ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

# WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

## MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

## VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

# TRUSTED PARTNERS

## Deep freezers Upto-35 Deg C

Deep freezers capable of reaching temperatures as low as  $-35^{\circ}\text{C}$  are essential machines in various industries for the preservation and storage of temperature-sensitive materials. These high-performance freezers are designed to provide ultra-low temperature conditions, ensuring the integrity and longevity of products such as biological samples, pharmaceuticals, chemicals, and food items. Constructed with robust insulation and advanced cooling technologies, these deep freezers offer precise temperature control and uniform cooling throughout the storage space. They are equipped with digital temperature displays, alarms, and monitoring systems to ensure consistent performance and to alert users of any temperature fluctuations.

These freezers are built with durable materials to withstand the rigors of industrial use, featuring stainless steel interiors for easy cleaning and maintenance. Their ergonomic design often includes adjustable shelves and ample storage capacity, making them versatile for different types of storage needs. Energy-efficient compressors and eco-friendly refrigerants are commonly used to minimize environmental impact and operational costs. Deep freezers with  $-35^{\circ}\text{C}$  capabilities are vital in laboratories, hospitals, research facilities, and food processing industries, providing reliable and secure storage solutions for critical materials that require stringent temperature control.

### Features

- Optimum temperature is up to  $-35.0^{\circ}\text{C}$
- Micro-controller based control
- Ensures consistent temperature throughout the storage space

- Alerts for temperature fluctuations
- Durable and easy to clean
- Maximizes thermal efficiency and maintains low temperatures
- Ergonomic layout for easy access and maintenance

### Advantages

- Reaches temperatures as low as  $-35^{\circ}\text{C}$  for optimal preservation
- Maintains consistent and accurate temperature settings
- Versatile storage options for various materials
- Ensures integrity of stored goods
- Prevents mold growth and corrosion
- Utilizes energy-saving compressors and eco-friendly refrigerants.

### Application

- Biotechnology
- Cosmetic Industry
- Veterinary Clinics
- Research Facilities
- Laboratories
- Pharmaceutical Industry

# OUR CLIENTS

# THANK YOU

## UNIT 1

4 & 5, Marudhar Industrial Estate, Gas Godown Lane, Goddev Fatak Road, Bhayander (E), Dist. Thane - 401105. (India)

Contact Us  
+91-22 48255071,  
48255072

## UNIT 2

Plot No. B-47, Addl. Midc Anandnagar, Ambernath (E), Dist. Thane (India)- 421506

Contact Us  
+91(0251)26205  
42/43/44/45/46

## KRDC

Plot No K2, Industrial Gala F4A, D- Wing, MGN Properties, Opposite Godrej Co., Addl MIDC Anand Nagar, Ambernath (E)- 421506 (India)

Contact Us  
+91-2512620543/44

## UNIT 4 (EUROPE)

Kerone Engineering Solutions LTD. (EMitech) Viale della Palma, 7, 70033 Corato BA, Italy (Europe)

## UNIT 5 (THAILAND)

Thailand Representative:  
163 Rajapark Building,  
18th floor, Sukhumvit 21  
Road (Asoke), Wattana,  
Bangkok - 10110, Thailand

Contact Person  
G.Vivekanand  
+6689 500 9821

## Uzbekistan / Kazakhstan (Office)

TIT Company LLC: 100060,  
2, A. Kahhar, Tashkent,  
Uzbekistan

Contact Person  
Mr. Slava
