ELECTRIC OVEN FOR HT & LT MOTORS

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

TRUSTED PARTNERS

Electric Oven For HT & LT Motors

Our Electric Oven for HT/LT Motors embodies the epitome of precision and reliability, meticulously engineered to meet the diverse demands of both commercial and industrial sectors. Crafted with state-of-the-art technology and meticulous attention to detail, our ovens ensure long-term and optimal performance for low- and high-tension (HT) motors alike. Built to rigorous specifications, these ovens provide motor components with a controlled environment, enhancing drying, curing, and insulating operations with unmatched effectiveness.

Featuring a robust construction and adjustable temperature settings, our electric ovens guarantee consistent and reliable results, thereby improving the performance and lifespan of HT/LT motors across a wide spectrum of applications. Trust in our electric ovens to deliver unparalleled efficiency and reliability, empowering your operations with superior performance and longevity in mind.

Features

- Precision-engineered for both high-tension (HT) and low-tension (LT) motors.
- Modern technology ensures accuracy and dependability.
- Rigorously built to meet commercial and industrial demands.
- Regulated environment enhances drying, curing, and insulating operations.
- Adjustable temperature settings for versatile applications.
- Strong construction ensures reliability and longevity.
- Improves performance and lifespan of HT/LT motors across applications.

Advantages

- Precision drying, curing, and insulation for HT/LT motors.
- Versatile application with adjustable temperature settings.
- Robust construction ensures durability and reliability.
- Enhanced performance and extended lifespan of motors.
- Modern technology for accuracy and dependability.
- Rigorously designed to meet commercial and industrial needs.
- Regulated environment for effective motor component treatment.

Application

- Food Processing
- Chemical Industry
- Pharmaceuticals
- Paint and Coatings
- Cosmetics Manufacturing
- Ensures uniform and regulated treatment of HT/LT motor parts.
- Curing of insulation materials for HT/LT motors.
- Ideal for industries requiring precise motor performance and longevity.

Technical specifications

Model	Eva- poration (sqm)	Volume (mcbm)	Drying capacity (kg/batch)	Steam consumption (kg/h)	Heating powder (kw)	Fan volume (cbm)	Fan Power (kw)	Dimension (mm)	Weight kg)
