

ELECTRICAL HEATING SYSTEM

48⁺ Years
Of experience

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

TRUSTED PARTNERS

Electrical Heating System

Electrical heating systems offer precise temperature control and heat distribution without using combustion. These systems generate heat exactly where needed, are clean, quiet, and produce minimal byproduct heat. Electric heating devices are versatile, can be sized appropriately, and placed anywhere, making them ideal for various applications. The rapid response time of electrical heating equipment makes them suitable for mass-production environments. KERONE specializes in designing and implementing these efficient and environmentally friendly heating solutions, leveraging its vast experience to optimize industrial operations.

There are several types of electrical heating systems, each with unique benefits. Electric space heaters, baseboard heaters, radiant floor heaters, heat pumps, and electric furnaces are commonly used. Heat pumps transfer heat from the outside environment, while electric furnaces use resistance heating elements. Baseboard heaters use convection to distribute heat, radiant floor heating provides even warmth from beneath the floor, and space heaters are portable for targeted heating. Understanding the differences among these systems helps in selecting the best fit for specific heating needs, balancing efficiency, cost, and environmental impact.

Features

- Precise Temperature Control
- Flexible Installation
- Clean Operation
- Quiet Performance
- Rapid Response Time

- Suitable for various settings, from residential to industrial.
- Supports the use of renewable energy sources, contributing to sustainability goals.

Advantages

- Accurate temperature regulation
- Installable in various locations
- Emission-free and silent operation
- Quick response time
- Minimal energy wastage
- Supports renewable energy use
- Reduced operational costs
- Suitable for diverse heating needs

Application

- Marine and offshore applications
- Healthcare
- Restaurants
- Paper Drying, Wood Drying
- Paint Curing
- Plastic Molding
- Metal Preheating
- Chemical, Food Processing
- High end residential
- Laboratory and Research

OUR CLIENTS

THANK YOU

UNIT 1

4 & 5, Marudhar Industrial Estate, Gas Godown Lane, Goddev Fatak Road, Bhayander (E), Dist. Thane - 401105. (India)
