# ETHANOL RECOVERY PLANT FROM BAMBOO

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

# ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

# WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

## MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

## VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

# TRUSTED PARTNERS

## Ethanol Recovery Plant From Bamboo

An Ethanol Recovery Plant from Bamboo signifies a groundbreaking advancement in sustainable biofuel production and environmental conservation efforts. By harnessing the renewable resource of bamboo, this innovative plant represents a paradigm shift towards eco-friendly ethanol production. Bamboo, known for its rapid growth rate and high cellulose content, offers a promising alternative feedstock for ethanol extraction.

The utilization of bamboo in ethanol production not only reduces reliance on traditional fossil fuels but also mitigates deforestation by providing a sustainable source of biomass. Moreover, the establishment of such a plant underscores a commitment to combating climate change by reducing greenhouse gas emissions associated with conventional fuel production. With its potential to revolutionize the biofuel industry and promote sustainable practices, the Ethanol Recovery Plant from Bamboo represents a significant step towards a greener, more sustainable future.

### Features

- Reduces reliance on fossil fuels.
- High-Quality Ethanol Production
- Continuous Innovation
- Advanced Ethanol Extraction
- Sustainable Bamboo Sourcing
- Represents a sustainable alternative in the biofuel industry.
- Mitigates deforestation by utilizing sustainable biomass.
- Offers potential for greener, more sustainable fuel production.

### Advantages

- Renewable Energy Source
- Energy Security
- Economic Benefits
- Diversification of Energy Sources
- Cleaner-Burning Fuel
- used for various ethanol applications.
- Reduces dependence on imported fuels.
- Reduced Greenhouse Gas Emissions
- Bamboo yields efficient ethanol production.

### Application

- Renewable biofuel production.
- Alternative to fossil fuels.
- Utilization of bamboo biomass.
- Environmental conservation.
- Promotes sustainable practices.
- Contribution to a greener future.
- Diversification of feedstock for ethanol production.

# OUR CLIENTS

# THANK YOU

## UNIT 1

4 & 5, Marudhar Industrial Estate, Gas Godown Lane, Goddev Fatak Road, Bhayander (E), Dist. Thane - 401105. (India)

Contact Us  
+91-22 48255071,  
48255072

## UNIT 2

Plot No. B-47, Addl. Midc Anandnagar, Ambernath (E), Dist. Thane (India)- 421506

Contact Us  
+91(0251)26205  
42/43/44/45/46

## KRDC

Plot No K2, Industrial Gala F4A, D- Wing, MGN Properties, Opposite Godrej Co., Addl MIDC Anand Nagar, Ambernath (E)- 421506 (India)
