# ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

# WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

## MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

## VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

# TRUSTED PARTNERS

## Feeder

A feeder is a piece of material handling equipment used to regulate the flow of bulk materials into the machinery for further processing or other process. A feeder is essentially a conveyor used for short distances where a uniform rate of dispersal is required. There are many types of feeders to suit many different industries depending on their operations. Feeders are often used in conjunction with other types of material handling equipment, like conveyors, crushers, dryers, grinders, blenders, and mixers.

We at KERONE are having 48 years experience in designing and manufacturing various types of specialized industrial machines for the processing need of our clients. We are having immense experience in designing and manufacturing of reactors that can best fit for the various industrial processing requirements of the reactors. We design the feeders as per the size and process need of the client. The feeders manufactured by KERONE are made with high quality internal and external material by taking discreet efforts for the perfect size and desired operations.

### Type of Feeder

- Batch Feeder
- Volumetric Feeder
- Continuous Feeder

### Features

- High performance
- Highly controllable
- Highly customizable
- Corrosion free
- Easy functions
- Very efficient
- Tailor made to fit your requirements
- Built with the high quality stainless steel material or special Alloys

### Application

- Construction/ Cement Industry
- Chemical Industry
- Food Industry
- Pharmaceutical Industry
- Plastics Industry
- Water Treatment Industry
- Glass, Steel, Coal Industry
- Powder Industry
- Mineral or Ore Material Industrial Industry

## Advantages

- Scalability
- Flexibility
- Cost Savings
- Improved Safety
- Energy Efficiency
- Increased Efficiency
- Reduced Downtime
- Precision and Accuracy
- Enhanced Quality Control

## Technical specifications

Volume	2 to 50,000 liters nominal capacity
Material	Stainless steel 316L, 316Ti,
Surface finish	< 0.4 $\mu\text{m}$
Surface finish	Mechanical and/or Electro-chemical
Pressure	Atmospheric / Pressure less / -1/10 bar (g)
Temperature	-20 °C to 200 °C
Vessel Design	Single, double and triple wall design, heatable, insulated

**Can be customized according to user requirements.**

# OUR CLIENTS

# THANK YOU

## UNIT 1

4 & 5, Marudhar Industrial Estate, Gas Godown Lane, Goddev Fatak Road, Bhayander (E), Dist. Thane - 401105. (India)

Contact Us
