

KERONE
Kerone Engineering Solutions Limited

FLAMEPROOF HEATERS

48⁺ Years
Of experience

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

TRUSTED PARTNERS

Flameproof Heaters

Flameproof heaters are indispensable appliances engineered with utmost efficiency and safety considerations, particularly for environments prone to flammable vapors or gases. Designed for use in hazardous industrial settings like petrochemical plants, chemical plants, and oil refineries, these specialty heaters prevent ignition of nearby explosive atmospheres. Their robust construction ensures any sparks or flames are contained within a durable enclosure, mitigating the risk of explosions in volatile surroundings. Meeting stringent safety regulations, flameproof heaters provide reliable heating solutions with superior heat transfer characteristics.

Vital for protecting people and property, these heaters demonstrate the industry's commitment to safety and innovation. Built tough to withstand potentially explosive situations, flameproof heaters play a crucial role in sectors like oil and gas, petrochemicals, pharmaceuticals, and food processing, ensuring safety while delivering dependable heating without igniting flammable materials. With strict adherence to international safety certifications and regulations, including features like temperature sensors and explosion-proof wiring, flameproof heaters uphold rigorous standards for usage in hazardous areas, offering peace of mind in demanding industrial environments.

Features

- Anti-condensation heaters fitted if required
- magnesium oxide powder sheathed within corrosion/erosion resistant tube
- Elements are specially sealed to prevent moisture ingress
- Suitable and certified for use in high ambient temperatures
- Elements are individually replaceable on site without the replacing the whole unit.
- Removable type elements available to facilitate replacement without draining the vessel
- Elements are manufactured from 80/20 nickel chrome resistance wire with high purity compacted

Advantages

- Safety in hazardous environments
- Efficient heating performance
- Compliance with safety regulations
- Containment of potential explosions
- Adaptability to combustible material environments
- Use of resilient materials like aluminum or stainless steel
- Peace of mind for operators working in hazardous conditions.

Application

- Fuel gas
- Heating medium
- Tank heating
- Crude oil
- Heat transfer oils
- Industrial gases
- Hydrocarbon liquids

Technical specifications

Voltage	230 V or 415 V
Temperature range	100–200°C or 400°C
Protection	IP 64 or IP 66
Installation	Horizontal or vertical
Elements	Nickel chrome resistance wire
Protection box	IP 54

OUR CLIENTS

THANK YOU
