ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

TRUSTED PARTNERS

Fule Fired Heating System

The Fuel Fired Heating System represents a pinnacle of dependability and efficiency in industrial heating solutions. Engineered with innovative combustion technology, it caters to the needs of contemporary businesses while minimizing environmental impact. Its meticulous design ensures maximum efficiency and even heat dispersion across various applications, enhancing productivity in manufacturing and commercial operations alike.

Versatile and easily integrable, it seamlessly fits into diverse industrial environments, adapting effortlessly to meet specific requirements. This system stands as a testament to our unwavering dedication to quality and innovation, delivering unparalleled performance in industrial heating. With Kerone's Fuel Fired Heating System, businesses can count on a reliable, efficient, and environmentally conscious solution designed to optimize productivity and performance.

Features

- Innovative combustion technology for maximum efficiency.
- Minimizes environmental impact with reduced emissions.
- Precision engineering ensures even heat dispersion.
- Easily integrable into existing systems.
- Guarantees dependability and reliability.
- Designed for contemporary businesses' needs.
- Optimizes productivity and efficiency in heating applications.

Advantages

- Dependable and efficient heating solution.
- Adaptable to various industrial environments.
- Utilizes innovative combustion technology.
- Easily integrable into existing systems.
- Reduced Maintenance Requirements
- Supports manufacturing and commercial operations.
- Ensures reliable and consistent heating.

Application

- Powering heat exchangers in HVAC systems.
- Space heating in warehouses, workshops, and large buildings.
- Preheating equipment and machinery in industrial settings.
- Heating water for sanitation purposes in agricultural operations.
- Heating in food processing facilities for cooking or baking.

OUR CLIENTS

THANK YOU
