ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

TRUSTED PARTNERS

Heaters Gas IR

Heaters Gas IR of the highest caliber are our specialty at Kerone. From selection to installation and upkeep, our team of professionals is dedicated to customizing solutions to meet your exact needs. Our commitment to quality and sustainability means that we provide your heating demands in an economical and responsible manner.

Heater Gas IR are made to satisfy the various heating requirements of business and industrial settings. Our steadfast dedication to both innovation and dependability has allowed us to establish ourselves as a reliable supplier for state-of-the-art heating solutions. Modern technology is used by Heaters Gas IR to harness the force of gas combustion to produce intense, focused heat. These heaters are a great option for many different applications because of their outstanding efficiency, reliable performance, and substantial energy savings.

The tube heaters and radiant ceramic plaque heaters are a popular heating solution for buildings such as a factory, warehouse, garage, fire station, manufacturing plant, auto dealership, machine shop, truck service area, farm building, greenhouse, loading dock, sports arena and aircraft hangars. Radiant tube heaters and radiant cone brooder heaters are popular for agricultural buildings such as poultry houses. The blown warm air heater for chickens, turkeys & other poultry provides a 'whole house' heating solution which can also be installed in conjunction with energy efficient radiant brooder heaters.

Application

- Industrial Curing & Drying
- Printing Industry
- Plastic Thermoforming
- Textile Drying and Curing
- Medical Device Manufacturing
- Metal Heat Treatment
- Building Materials Production
- Semiconductor Industry
- Food Industry
- Wood working

Features

- Precise Temperature Control
- Infrared Technology
- Fuel Efficiency
- High Output and Intensity
- Modularity and Zoning
- Compact Design
- Safety Features
- Quick Start-Up and Shut-Down
- Durable Construction
- Remote Control and Monitoring
- Reduced Emissions
- Low Maintenance Requirements

Advantages

- No Heat Loss due to Air Movement
- Directional Heating
- Cost-Effective Operation
- Instantaneous Heat
- Focused Heat Distribution
- Silent Operation, Long Lifespan
- No Temperature loss in surrounding, ambient workplace.
- Environmental friendly and green heating solution, no carbon emission.

OUR CLIENTS

THANK YOU
