

48⁺ Years
Of experience

HIGH PERFORMANCE INFRARED HEATERS

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

TRUSTED PARTNERS

High Performance Infrared Heaters

High performance infrared heaters represent the pinnacle of heating technology, meticulously designed to meet the demanding requirements of processes and applications requiring high temperatures. These heaters, such as ceramic infrared rod heat exchangers, are engineered to generate and sustain temperatures up to 1000°C with surface ratings up to 87 kW/m². The key to their efficiency lies in the gold-plated ceramic parabolic reflectors, which achieve up to 80% heat transfer efficiency, ensuring rapid heating and precise temperature control.

Unlike traditional heating systems, high performance infrared heaters utilize infrared radiation to directly warm objects and people within their range, resulting in quick, reliable warmth without protracted warm-up times. Their targeted approach minimizes energy waste by focusing heat precisely where it's needed, making them ideal for both residential and commercial applications. With superior energy efficiency, adaptability to various environments, durability, and user-friendly design, high performance infrared heaters offer unparalleled performance and reliability for a wide range of heating needs.

Features

- High temperature capability up to 1000°C.
- Targeted heating for precise warmth.
- Versatility for indoor and outdoor use.
- Durability and weatherproof construction.
- Easy installation and operation.
- Energy efficiency for cost savings.
- Efficient heat transfer with up to 80% efficiency.

Advantages

- High temperature capabilities
- Rapid heating
- Precise temperature control
- Energy efficiency
- Targeted heating
- Versatility
- Environmentally friendly
- User-friendly design
- Consistent performance

Application

- Industrial processes
- Commercial spaces
- Construction sites
- Healthcare facilities
- Agriculture
- Automotive workshops
- Food processing
- Drying paint, curing adhesives, and forming plastics.

OUR CLIENTS

THANK YOU

UNIT 1

4 & 5, Marudhar Industrial Estate, Gas Godown Lane, Goddev Fatak Road, Bhayander (E), Dist. Thane - 401105. (India)
