HOT MELT COATING MACHINE

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

TRUSTED PARTNERS

Hot Melt Coating Machine

Kerone Hot Melt Coating Equipment represents the epitome of precision and efficiency in adhesive application. Designed to meet the demands of diverse manufacturing environments, our machines are renowned for their reliability and adaptability. With advanced features such as automated monitoring and precise temperature control, they ensure consistent and uniform application on various substrates.

By enhancing product quality and streamlining processes, our equipment is ideal for a wide range of industrial applications, including labeling and packaging. Trust in our machinery to elevate your manufacturing capabilities and drive your business towards success in today's competitive market landscape.

With over 48+ years of expertise, we at KERONE have designed and built a wide range of specialized coating and impregnation machines to meet our clients' diverse industrial processing demands. We have a great deal of expertise developing and producing Hot Melt Coating systems that are tailored to the specific needs and scale of our clients' businesses in terms of processing and size. KERONE uses premium materials for both its internal and external hot melt coating systems, making careful adjustments to provide a flawless finish and even heat distribution.

Features

- Heating System
- Coating Head/Nozzle
- Substrate Handling System
- Temperature Control
- Speed Control
- Adjustable Coating Thickness
- Drying or Cooling System
- PLC (Programmable Logic Controller) or HMI (Human-Machine Interface)

Advantages

- Environmentally friendly due to water and solvent-free adhesives
- Low coating weight needed
- Elimination of dryer / low energy requirements
- No thermal stress of substrate
- High production speed possible
- Permanent or non permanent coating possible
- Maintenance and Cleaning

Application

- Packaging Industry
- Textile Industry
- Automotive Industry
- Medical Industry
- Construction Industry
- Electronics Industry

OUR CLIENTS

THANK YOU
