ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

TRUSTED PARTNERS

Infrared Heating Equipment

Our infrared heating equipment stands out for its ability to efficiently reduce energy waste while creating a comfortable atmosphere through the direct emission of radiant heat using cutting-edge infrared technology. These heaters are not only functional but also aesthetically pleasing, blending modern design with precise engineering to ensure consistent warmth across various environments.

With a wide range of options available, our lineup caters to both residential and commercial needs, offering affordable and environmentally responsible solutions. Whether you're looking to heat a home or a business space, our innovative technologies promise a seamless fusion of warmth and sustainability, paving the way for the future of heating.

Infrared heating equipments are designed to project heat to warm objects directly and not change the temperature in a space. Aside from their ability to rapidly raise the temperature of objects or materials, Infrared heating equipments complete the heating process using a minimal amount of energy at lower cost.

Features

- Can be tailored to fit specific heating requirements and space dimensions
- Rapidly warms up the targeted area, ensuring immediate comfort
- Utilizes infrared technology, which does not involve open flames or hot surfaces
- Operates quietly without disrupting the ambiance of the surroundings
- Built with durable materials for extended lifespan and reliability

Advantages

- Directly emits radiant heat, minimizing energy waste.
- Creates a pleasant atmosphere by warming objects directly.
- Sleek design combined with precise engineering.
- Provides uniform warmth across various environments.
- Available for residential and commercial use.

Application

- Residential Heating
- Commercial Spaces
- Industrial Applications
- Outdoor Areas
- Medical Settings
- Agricultural Uses
- Construction Sites

OUR CLIENTS

THANK YOU
