# ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

# WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

## MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

## VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

# TRUSTED PARTNERS

## Infrared Oven

Introducing infrared ovens, innovative solutions at the forefront of modern heating technology. Infrared ovens utilize infrared radiation to transfer heat directly to the surface of products, offering efficient and uniform heating across a variety of materials. These ovens are revolutionizing industrial processes in sectors such as food production, automotive manufacturing, electronics, and coatings. With their ability to rapidly heat materials without preheating, infrared ovens optimize energy usage and enhance productivity.

They provide precise temperature control, reducing processing times and ensuring consistent results. From curing coatings to baking foods and drying materials, infrared ovens offer versatile applications that streamline production while maintaining quality standards. As industries continue to seek faster and more efficient methods, infrared ovens emerge as indispensable tools, driving innovation and efficiency in manufacturing processes worldwide.

### Features

- Utilizes infrared radiation for direct and efficient heating
- Rapid heating without the need for preheating
- Uniform heat distribution across the surface of products
- Precise temperature control for consistent results

- Reduced processing times and increased productivity
- Reduced processing times and increased productivity
- Compact designs for space-saving installation options
- Energy-efficient operation compared to traditional heating methods

### Advantages

- Energy efficiency compared to conventional ovens
- Rapid and efficient heating process
- Uniform heating for consistent results
- Reduced processing times for increased productivity
- Compact design for space-saving installations
- Minimal preheating requirements for immediate use
- Reduced risk of product overheating or burning

### Application

- Pharmaceuticals
- Automotive Sector
- Food Industry
- Vegetable and fruit processing (drying, roasting)
- Plastics Industry
- Textile Industry
- Woodworking, Metalworking

# OUR CLIENTS

# THANK YOU

## UNIT 1

4 & 5, Marudhar Industrial Estate, Gas Godown Lane, Goddev Fatak Road, Bhayander (E), Dist. Thane - 401105. (India)

Contact Us  
+91-22 48255071,  
48255072

## UNIT 2

Plot No. B-47, Addl. Midc Anandnagar, Ambernath (E), Dist. Thane (India)- 421506

Contact Us
