INFRARED PISTON ROD HEATING SYSTEM

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

TRUSTED PARTNERS

Infrared Piston Rod Heating Systems

Infrared Piston Rod Heating Systems are a revolutionary solution designed to enhance the performance and longevity of industrial machinery. Utilizing advanced infrared technology, these systems ensure optimal and even heat absorption into piston rods, resulting in faster warm-up times and reduced energy consumption. This innovative approach not only minimizes wear on critical parts but also prolongs their lifespan, making it an ideal choice for various industrial applications. Customizable temperature set points and fast response characteristics cater to diverse operating conditions, from production processes to the energy sector, optimizing production and minimizing downtime in a competitive industrial environment.

KERONE, a leader in technological breakthroughs for over 48+ years, offers a comprehensive range of high-quality infrared heating solutions. Our infrared piston rod heating systems, known for quick heating capabilities, reduce downtime and boost production efficiency. Built with durable materials and rigorously tested for reliability, these systems feature a user-friendly interface for easy customization, ensuring operational safety. They provide an economical, environmentally friendly alternative to traditional heating methods, adaptable to diverse industrial needs.

Features

- Rapid heat-up time for increased efficiency
- Simple controls for easy customization
- Infrared technology ensures uniform heat absorption
- Adjustable temperature set points for various operating conditions

- Suitable for diverse industries
- Consumes less energy, reducing operational costs
- Minimizes the risk of damage to nearby components

Advantages

- Quick and Targeted Heating
- Uniform Heating
- Energy Efficiency
- Process Control
- Space Efficiency
- Reduced Maintenance
- Environmentally Friendly

Application

- Industrial Processes
- Manufacturing
- Textile Industry
- Food Processing Industry
- Automotive Applications
- Space Heating
- Laboratory and Research
- Electronics and Semiconductor Manufacturing

OUR CLIENTS

THANK YOU

UNIT 1

4 & 5, Marudhar Industrial Estate, Gas Godown Lane, Goddev Fatak Road, Bhayander (E), Dist. Thane - 401105. (India)
