

# INSULATED CERAMIC INFRARED MODULE

**48<sup>+</sup>** Years  
Of experience

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

# ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

# WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

## MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

## VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

# TRUSTED PARTNERS

## Insulated Ceramic Infrared Heaters

Insulated Ceramic Infrared Heaters represent a pinnacle of comfort, efficiency, and innovation in heating solutions across commercial, industrial, and residential settings. These heaters embody cutting-edge technology combined with unmatched performance, revolutionizing traditional notions of warmth. Featuring special insulation that ensures internal safety and enables higher temperatures without risk, they minimize heat losses and reduce energy consumption, making them a highly energy-efficient option. The core of these heaters lies in their capacity to emit infrared radiation effectively and efficiently, directly heating surfaces within their reach. This radiant heat transfer system ensures quick and even warmth without the need for preheating or extensive operation.

Their exceptional energy efficiency is bolstered by the insulation surrounding the heaters, which prevents heat dissipation and directs it precisely where needed. This not only saves money but also benefits the environment. Moreover, these heaters provide targeted heat distribution, enhancing comfort and coziness while minimizing dust and allergies, unlike forced-air systems. Their adjustable features and flexible construction offer versatility in meeting various heating needs, from spot heating to large-area heating, with sophisticated controls allowing users to fine-tune settings for maximum comfort and efficiency.

### Features

- High temperature up to 900 degree centigrade
- Fast heat up time approx. 2 minute.
- Can be installed easily
- Minimizes heat loss and reduces energy consumption, thanks to insulation.
- Power saving by preventing heat loss from the rear end by the reflector.
- Emits infrared radiation to directly heat surfaces without preheating.

### Advantages

- Consistent performance
- Early detection of flaws in manufacturing processes.
- Wide operating wavelength range for versatile applications.
- Targeted heat distribution ensures constant warmth without stirring up dust or allergies, enhancing comfort.
- Reduced energy consumption not only saves money but also contributes to environmental sustainability.

### Application

- Thermoforming
- PVC paste coatings on fabric
- Powder coating
- Paint Baking
- Tempering glass
- Soldering Printed Circuit Boards
- Food processing and packaging

# OUR CLIENTS

# THANK YOU

## UNIT 1

4 & 5, Marudhar Industrial Estate, Gas Godown Lane, Goddev Fatak Road, Bhayander (E), Dist. Thane - 401105. (India)

Contact Us  
+91-22 48255071,  
48255072

## UNIT 2

Plot No. B-47, Addl. Midc Anandnagar, Ambernath (E), Dist. Thane (India)- 421506

Contact Us  
+91(0251)26205  
42/43/44/45/46

## KRDC

Plot No K2, Industrial Gala F4A, D- Wing, MGN Properties, Opposite Godrej Co., Addl MIDC Anand Nagar, Ambernath (E)- 421506 (India)

Contact Us
