LAB AND PILOT SCALE COATING LINE

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

TRUSTED PARTNERS

Lab and Pilot Scale Coating Line

Introducing our Lab and Pilot Scale Coating Line – an advanced solution meticulously crafted for research and development laboratories and small-scale production facilities. By seamlessly integrating cutting-edge coating technology with a steadfast commitment to reliability and quality, we bridge the gap between laboratory experiments and precision production processes. At Kerone, customization is key, as we design our systems to meet the specific needs of our customers, ensuring satisfaction and delivering the machinery required for success. Our laboratory and pilot scale coating lines epitomize the perfect balance of innovation and performance, making us the preferred solutions provider for manufacturing superior coating technology.

Whether you require small-scale production systems or drying technology for research labs, we stand as your trustworthy option. Our clients have witnessed outstanding results from our coating line systems, with some even designed for easy installation, demonstrating our dedication to facilitating seamless transitions and exceptional outcomes. With Kerone, experience the pinnacle of coating technology, where reliability, performance, and innovation converge to elevate your processes to new heights.

Features

- Technically reliable and efficient

- Suitable to handle small input and provide better performance
- Flexible, highly efficient coating machine for high quality
- Aesthetically vibrant and Technically advanced
- Big Coating Performance by small size equipment

Advantages

- Cost Efficiency
- Process Optimization
- Reduced Material Waste
- Risk Mitigation
- Flexibility and Adaptability
- Shorter Development Time
- Equipment Testing and Calibration
- Quality Control and Consistency
- Customization and Specialized Applications
- Regulatory Compliance

Application

- Research and Development
- Flexible packaging
- Flexible printed electronics
- Security printing
- Medical and pharmaceuticals
- Fuel Cells and batteries
- Holograms , Laminating

OUR CLIENTS

THANK YOU
