# ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

# WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

## MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

## VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

# TRUSTED PARTNERS

## Low Temperature Water Bath

The Low Temperature Water Bath is a precision-engineered device crucial for maintaining and regulating low temperatures in various scientific and industrial applications. Essential for procedures requiring stable temperatures, such as sample incubation, chemical reactions, and material testing, these baths are constructed with high-quality, corrosion-resistant stainless steel for excellent thermal conductivity and uniform temperature distribution. Advanced digital controls ensure precise temperature settings, making these baths indispensable in research laboratories, hospitals, and industrial settings.

Equipped with powerful refrigeration systems and high-efficiency insulation, these baths maintain temperatures from just above freezing to sub-zero levels. Safety features like over-temperature protection, low-liquid level alarms, and user-friendly interfaces enhance usability and security. Customizable options, including different sizes and temperature ranges, meet specific needs. Their versatility makes them suitable for biochemical and pharmaceutical research, quality control, and materials testing, ensuring accurate and reproducible results in any workflow.

### Features

- Dual LED screen displays temperature and time
- Protection against compressor overload, high/low voltage and current
- Inner and outer chamber made of stainless steel is corrosion resistant and sturdy
- Equipped with caster for easy installation
- Convenient and reliable operation

- Stainless steel working chamber
- Cooling device assembly
- PID parameters controlling function
- High accuracy and dependability of temperature controlling
- Intelligent microcomputer temperature adjuster

### Advantages

- Precise Temperature Control
- Uniform Temperature Distribution
- Compatibility with Accessories
- Energy Efficiency
- Storage Capacity
- Sample Integrity
- Temperature Control
- Stability Over Time
- Consistent Experimental Conditions

### Application

- Biochemical Research
- Pharmaceutical Research
- Medical Laboratories
- Chemical Analysis
- Environmental Science
- Food and Beverage Industry

# OUR CLIENTS

# THANK YOU

## UNIT 1

4 & 5, Marudhar Industrial Estate, Gas Godown Lane, Goddev Fatak Road, Bhayander (E), Dist. Thane - 401105. (India)

Contact Us  
+91-22 48255071,  
48255072

## UNIT 2

Plot No. B-47, Addl. Midc Anandnagar, Ambernath (E), Dist. Thane (India)- 421506

Contact Us  
+91(0251)26205  
42/43/44/45/46

## KRDC

Plot No K2, Industrial Gala F4A, D- Wing, MGN Properties, Opposite Godrej Co., Addl MIDC Anand Nagar, Ambernath (E)- 421506 (India)

Contact Us
