MEDIUM WAVE INFRARED HEATERS

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

TRUSTED PARTNERS

Medium Wave Infrared Heaters

Medium Wave Infrared Heaters manufactured by KERONE represent the forefront of heating technology, offering unparalleled comfort, efficiency, and versatility across various applications. These heaters feature spiral resistance coils encased in pure vitreous silica fused quartz tubes, capped with specially designed ceramic insulating caps for breathability and longevity. Their ability to emit infrared radiation enables them to provide quick and effective heating without the need for preheating, delivering steady warmth that is both economical and eco-friendly. With precise focused heating capabilities, they minimize energy waste, lower heating costs, and reduce environmental impact by targeting heat where it's needed most.

Flexible installation options allow seamless integration into any environment, ensuring optimal comfort and efficiency whether installed on walls, ceilings, or freestanding structures. Moreover, their silent operation, low maintenance requirements, and health benefits make them an attractive heating solution, promoting a calm and cozy environment while improving air quality and providing relief from ailments such as arthritis and muscular soreness.

Features

- Ceramic Insulating Caps
- Spiral Resistance Coil
- Maintenance required is least.
- The length varies from 300 to 1500 mm.
- They can be used in horizontal position.
- It is available in diameters of 8, 10, 12, 15 and 19 mm.
- Specially designed heating coils ensure longer life.

Advantages

- Efficient and quick heating
- Precision-focused heat distribution
- Versatility for various applications
- Easy integration into different environments
- Health benefits for improved comfort
- Quiet operation and low maintenance
- Environmental sustainability through reduced energy consumption.

Application

- Shrink Packaging Machines.
- Drying Textiles.
- Lamination Industries.
- Rubber Curing.
- Drying of paints
- Processing Plastic foils and sheet

OUR CLIENTS

THANK YOU
