ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

TRUSTED PARTNERS

Metal Organic Framework

Metal Organic Frameworks (MOFs) stand as a revolutionary class of materials, characterized by their intricate architecture where metal ions or clusters are intricately coordinated with organic ligands. This unique structure results in a vast network of pores and channels, granting MOFs exceptionally high surface areas and pore volumes. This porous nature allows MOFs to exhibit a wide range of tunable properties, making them incredibly versatile for various applications. Researchers can tailor MOFs' properties by carefully selecting the metal ions and organic linkers used in their synthesis, enabling precise customization to meet specific requirements. One of the most notable features of MOFs is their remarkable capacity for gas storage and separation, making them ideal for clean energy applications.

Additionally, MOFs show promise in catalysis, drug delivery, and environmental remediation, showcasing their immense potential to revolutionize various fields of science and technology.

Features

- Porous Structure
- Exceptional Surface Area
- Tunable Pore Size
- High Adsorption Capacity
- Innovative Catalysis
- Biocompatibility
- Active Research Area

Advantages

- High surface area for enhanced adsorption.
- Efficient gas storage and separation capabilities.
- Potential for catalytic activity in chemical reactions.
- Contribution to environmental remediation efforts.
- Structural stability under various conditions.
- Driving innovation in materials science and engineering.

Application

- Gas Storage and Separation
- Carbon Capture and Storage
- Catalysis
- Water Harvesting
- Chemical Separation
- Environmental Remediation

OUR CLIENTS

THANK YOU

UNIT 1

4 & 5, Marudhar Industrial Estate, Gas Godown Lane, Goddev Fatak Road, Bhayander (E), Dist. Thane - 401105. (India)
