# MICROWAVE MEDICAL WASTE TREATMENT

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

# ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

# WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

## MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

## VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

# TRUSTED PARTNERS

## Microwave Medical Waste Treatment

Microwave Medical Waste Treatment stands as a groundbreaking solution, revolutionizing hospital waste management with its unparalleled speed and efficiency. By swiftly eliminating microorganisms and hazardous substances sans the use of dangerous chemicals, it ensures a safe and sterile environment, drastically reducing the risk of nosocomial infections. Catering to a variety of medical waste types, from sharps to contaminated plastics, this technology not only meets but exceeds stringent regulatory standards, promoting sustainable waste disposal practices.

Embracing Microwave Medical Waste Treatment heralds a new era of healthcare, one marked by enhanced patient safety and environmental consciousness. It's a pivotal step towards a healthier future, beckoning hospitals to adopt this transformative solution and transcend conventional boundaries in waste management practices.

### Features

- Energy and Cost efficient
- Consume lesser power
- Quick and Easy installation
- Lesser maintenance
- Condensed construction
- Accurately designed and engineered
- Hassle-free operational
- Highly durable

- Automatic door operating mechanism
- High temperature resilient silicon gasket
- Fully automated machine with PLC control panel and online printer
- Working life is more than conventional heating systems

### Advantages

- Lower processing time
- Fast and uniform heating
- Selective heating/drying
- Direct utilization of large-sized feedstock's
- Better production quality
- New materials and products
- Improved process control
- Ability to operate from an electrical source
- Lower energy consumption

### Application

- Adheres to strict regulatory standards
- Decreases probability of nosocomial infections
- Fosters sustainable waste disposal practices
- High accuracy and speed enhance operational efficiency
- Promotes a healthier and environmentally friendly future for healthcare establishments
- Destroys microorganisms and toxic substances without hazardous chemicals
- Fast and efficient treatment of medical waste

# OUR CLIENTS

# THANK YOU

## UNIT 1

4 & 5, Marudhar Industrial Estate, Gas Godown Lane, Goddev Fatak Road, Bhayander (E), Dist. Thane - 401105. (India)
