

48⁺ Years
Of experience

MICROWAVE SOLID STATE GENERATOR

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

TRUSTED PARTNERS

Microwave Solid State Generator

The Microwave Solid State Generator stands at the forefront of electromagnetic technological advancement, representing a pinnacle of precision, dependability, and efficiency. Crafted for industrial revolutions, this innovative machine delivers microwave energy with unparalleled accuracy, leveraging cutting-edge solid-state circuitry. Its unmatched performance and versatility extend across a broad spectrum of applications, ranging from telecommunications to material processing, where reliability and precision are paramount.

Equipped with sophisticated controls and boasting a compact form factor, it seamlessly integrates into existing systems, enhancing output while simultaneously reducing operational expenses. This technological marvel embodies the epitome of modern engineering, poised to drive forward advancements across diverse industrial sectors.

Features

- delivers microwave radiation with accuracy and dependability using solid-state electronics.
- Offers unparalleled accuracy and dependability in industrial applications.
- Versatile, suitable for a wide range of industries and processes.

- Compact form factor for seamless integration into existing systems.
- Advanced controls ensure efficient operation and performance optimization.
- Reduces operational expenses while boosting output and productivity.
- Flexible output power

Advantages

- Reduced maintenance requirements due to solid-state technology.
- Faster startup and shutdown times for increased efficiency.
- Lower energy consumption compared to conventional generators.
- Consistent performance over a wide range of operating conditions.
- Minimal electromagnetic interference (EMI) for improved safety and reliability.
- Greater flexibility in frequency and power adjustments for diverse applications.

Application

- Telecommunications for signal transmission and amplification.
- Material processing including drying, curing, and sintering.
- Medical equipment such as MRI machines and diathermy devices.
- Scientific research for spectroscopy and plasma generation.
- Food processing for thawing, cooking, and pasteurization.
- Environmental applications such as waste treatment and pollution control.

OUR CLIENTS

THANK YOU

UNIT 1

4 & 5, Marudhar Industrial Estate, Gas Godown Lane, Goddev Fatak Road, Bhayander (E), Dist. Thane - 401105. (India)
