

48⁺ Years
Of experience

MICROWAVE VACUUM TECHNOLOGY

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

TRUSTED PARTNERS

Microwave Vacuum Technology

Introducing Microwave Vacuum Technology (MVT), a groundbreaking fusion of vacuum and microwave radiation that is revolutionizing industrial operations. By harnessing the power of deep material penetration, MVT accelerates drying, heating, and processing processes while ensuring unparalleled consistency. One of its key advantages lies in preserving material quality through the reduction of oxidation within a vacuum environment. From the food industry to materials synthesis, MVT offers a sustainable and efficient solution that transcends traditional limitations.

Embracing MVT not only fosters innovation in production and research but also delivers tangible benefits such as heightened productivity, reduced energy consumption, and elevated product quality. With MVT, the possibilities for advancement in industrial operations are limitless, heralding a new era of efficiency and sustainability.

Features

- Rapid and uniform heating
- Energy efficiency
- Preservation of product quality
- Versatile drying capabilities
- Reduced microbial contamination
- Enhanced process control
- Compact and space-saving design

- Compatible with automation systems for increased efficiency and productivity in industrial settings.
- Ensures consistent results across batches due to uniform application of microwave radiation and controlled vacuum environment.

Advantages

- Faster Processing Times
- Energy Efficiency
- Uniform Heating
- Preservation of Nutritional Value
- Improved Product Quality
- Enhanced Safety
- Reduced Environmental Impact
- Facilitation of innovation in production and research endeavors.

Application

- Food processing
- Materials Synthesis
- Chemical Industry
- Pharmaceutical Manufacturing
- Environmental Remediation
- Electronics Manufacturing
- Textile Industry
- Research and Development

OUR CLIENTS

THANK YOU

UNIT 1

4 & 5, Marudhar Industrial Estate, Gas Godown Lane, Goddev Fatak Road, Bhayander (E), Dist. Thane - 401105. (India)
