PLASTIC ANNEALING OVEN

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

TRUSTED PARTNERS

Plastic Annealing Oven

Introducing the Kerone Plastic Annealing Oven, an innovative solution meticulously crafted to meet the demands of modern industrial processes. Engineered with precision and attention to detail, our oven delivers unparalleled annealing performance for plastic materials. Equipped with advanced temperature control systems, it ensures uniform heat distribution throughout the chamber, mitigating material distortion and guaranteeing consistent results.

Its robust design and intuitive interface make it an invaluable asset for businesses requiring precise heat treatment of plastic components. With our expertise and creativity, unleash the full potential of your manufacturing capabilities, and trust in the reliability and efficiency of Kerone's Plastic Annealing Oven to elevate your production standards.

Features

- Ensures accurate and uniform heat distribution for annealing plastic materials.
- Sophisticated technology prevents material distortion and ensures reliable results.
- Uniform heating throughout the chamber minimizes hot spots and ensures consistent annealing.
- User-friendly controls make operation straightforward and efficient.
- Suitable for a wide range of plastic materials and component sizes.

- Tailored for Industrial Use
- Enhanced Product Performance
- Meticulously engineered with attention to detail to ensure optimal annealing performance.

Advantages

- Optimized Annealing Performance
- Minimized Material Distortion
- Consistent Results
- Durable Construction
- Intuitive interface facilitates easy and efficient control of the annealing process.
- Specifically designed to meet contemporary industrial requirements.
- Enhances the strength and performance of annealed plastic components.
- Optimizes manufacturing efficiency and reduces lead times.
- Meticulously crafted with attention to detail, ensuring optimal performance and reliability.

Application

- Plastic Manufacturing
- Injection Molding
- Thermoforming
- Extrusion Processes
- Composite Manufacturing
- 3D Printing
- Medical Device Production

OUR CLIENTS

THANK YOU

UNIT 1

4 & 5, Marudhar Industrial Estate, Gas Godown Lane, Goddev Fatak Road, Bhayander (E), Dist. Thane - 401105. (India)
