POTATO POWDER PRODUCTION PLANT

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

TRUSTED PARTNERS

Potato Powder Production Plant

The establishment of a potato powder production plant represents a strategic initiative to capitalize on the versatility of potatoes in meeting diverse consumer demands. By utilizing advanced processing techniques, the plant transforms fresh potatoes into a fine powder, unlocking a multitude of applications across the food industry. From serving as a convenient ingredient for instant mashed potatoes, soups, and sauces to acting as a versatile thickening agent and flavor enhancer in various culinary creations, potato powder offers practical solutions for both domestic and industrial food processing needs.

Additionally, its extended shelf life and ease of transport not only address logistical challenges but also open avenues for value addition and potential export opportunities, making it a significant contributor to the growth and development of the food processing sector.

Features

- Advanced processing machinery for efficient powder extraction.
- Storage facilities for both raw potatoes and finished powder.
- Waste management systems to minimize environmental impact.
- Cleaning and sanitation protocols to maintain hygiene standards.
- Quality control measures to ensure consistent product standards.
- Logistics infrastructure for distribution and supply chain management.

Advantages

- Consistent quality and flavor profile, ensuring uniformity in recipes.
- Convenient handling and storage, requiring minimal space.
- Reduced dependency on seasonal fluctuations in potato prices.
- Enhanced food safety through controlled processing conditions.
- Contribution to the utilization of agricultural surplus and food security.
- Extended shelf life compared to fresh potatoes.

Application

- Instant mashed potatoes production.
- Soup and sauce thickening agent.
- Food seasoning and flavor enhancement.
- Animal feed formulation.
- Bakery and snack manufacturing.
- Seasoning blends and spice mixes.

OUR CLIENTS

THANK YOU
