

SPACE HEATERS EMBEDDED ELEMENTS & METAL CASTED ELEMENTS

48⁺ Years
Of experience

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

TRUSTED PARTNERS

Space Heaters Embedded Elements & Metal Casted Elements

Space Heaters Embedded Elements and Metal Casted Elements offer efficient heating solutions through conduction, convection, or radiation, catering to various operational temperatures and methods. Embedded in metal or non-metal casings, these heaters ensure uniform heating across surfaces, making them ideal for hotplates and ducting systems. With operational ranges from 3 KW to 450 KW, they provide controlled heat emission. Discreetly integrated into structures, embedded element heaters, typically made of quartz or ceramic, ensure rapid and direct heat transfer, making them suitable for compact spaces with aesthetic considerations.

They are also known for energy efficiency, directing heat precisely to the environment, thereby reducing overall energy consumption. However, safety concerns persist, requiring careful placement and usage despite built-in safety features like tip-over switches. Conversely, metal cast element heaters, encasing heating elements in durable metal housings, offer longevity and protection against wear, ensuring sustained performance over time.

Features

- High durability
- Energy and Cost efficient
- Easily Controllable heat transfer
- Proficient performance
- Solid construction
- Longer service life
- Swift and Easy installation
- Little and trouble-free maintenance

Advantages

- Wide operational range (3 KW to 450 KW)
- Discreet integration for compact spaces
- Energy-efficient with precise heat transfer
- Built-in safety features
- Longevity and durability with metal encasement
- Suitable for hotplates and ducting systems
- Uniform heating across surfaces
- Uniform heating across surfaces
- Efficient heating through conduction, convection, or radiation

Application

- Chemicals processing.
- Fertilizers ● Boilers
- Pharmaceutical Industry
- Hot water generators

OUR CLIENTS

THANK YOU

UNIT 1

4 & 5, Marudhar Industrial Estate, Gas Godown Lane, Goddev Fatak Road, Bhayander (E), Dist. Thane - 401105. (India)
