Of experience

SURFACE HEATING SYSTEM (IR)

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

TRUSTED PARTNERS

Surface Heating System (IR)

Surface Heating Systems (IR) offered by KERONE are acclaimed for their efficiency in heating or drying the surface layer of materials, finding wide applications in industries like textiles, ceramics, metals, FMCG, and food processing. Operating on the principle of infrared radiation, these systems swiftly heat surfaces by colliding with water molecules, making them ideal for tasks such as drying paint or running screen printing machines. Unlike conventional methods relying on forced air or convection, infrared surface heaters directly target surfaces and objects, ensuring uniform heating without the drawbacks of uneven distribution or air currents. Their adaptability allows seamless integration into various environments, from homes to industrial settings, providing tailored heating solutions.

Additionally, they boast remarkable energy-saving capabilities by minimizing heat loss and reducing overall energy consumption, thus contributing to cost efficiency and environmental sustainability. Incorporating modern technology such as smart thermostats and zoning features, these systems offer users precise control and convenience, enabling personalized settings to optimize productivity or maintain comfortable temperatures in any space.

Features

- Direct Heating
- Zonal Heating
- Precise Temperature Control
- Uniform Heating
- Customizable Heating Patterns
- Long Service Life
- No Preheating Time
- Rapid Warm-Up Time
- Reduced Emissions
- Efficient performance

Advantages

- IR heating systems are faster heating system, results in saving of time.
- Instant heating of the material, hence no warm up time.
- Environmental friendly and green heating solution, no carbon emission.
- Better floor utilization index, as compact in size.
- 100% energy utilization, Heats only desired spot of material.

Application

- Industrial Curing and Drying
- Food Processing
- Metal Heat Treatment
- Plastics Industry
- Plastic Thermoforming
- Semiconductor Industry
- Building Materials Production
- Textile Drying and Curing

OUR CLIENTS

THANK YOU

UNIT 1

4 & 5, Marudhar Industrial Estate, Gas Godown Lane, Goddev Fatak Road, Bhayander (E), Dist. Thane - 401105. (India)
