# ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

# WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

## MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

## VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

# TRUSTED PARTNERS

## Tubular heaters

Tubular heaters, a key component in various heating systems, offer unparalleled adaptability and effectiveness across diverse industrial applications. Constructed with premium metals like steel, stainless steel, Incoloy, Inconel, or titanium alloys, these heaters are meticulously designed to withstand rigorous conditions and deliver efficient heat transmission from the resistance coil to the heating medium. With customizable options available, including size, shape, and watt density, tubular heaters can be tailored to meet specific heating requirements, ensuring optimal performance and extended lifespan.

Their uniform heat dispersion, facilitated by their tubular construction, makes them indispensable in heating liquids, gases, and solids in processes requiring temperatures of up to 750 degrees Celsius (1382 degrees Fahrenheit). From food and beverage production to petrochemical and chemical processing, tubular heaters play a vital role in ensuring consistent, reliable heating for enhanced efficiency and product quality.

### Features

- Termination Options
- Various Sheath Materials
- Nickel Chrome resistance wire
- Immersion Heaters are available with screw plug flanges
- Air Heaters are available with MS or SS fins
- Tubular heating elements with additional PTFE sleeving is available for heating corrosive chemicals.

### Advantages

- Customizable in size, shape, and watt density for various applications.
- Effective transmission ensures uniform heating.
- Constructed with premium materials for long-lasting reliability.
- Capable of operating at high temperatures.
- Tailored to specific heating requirements.
- Ensures consistent heating across surfaces.
- Long-term savings due to efficiency and reliability.
- Used across industries for various heating needs.
- Designed for seamless integration into existing systems.

## Application

- Plastic Processing machinery.
- Packaging machineries
- Vending Machines.
- Dies and Tools.
- Water and Oil Heating Appliances.
- Heating Chemical Solutions.
- Ovens & Dryers
- Kitchen equipments
- Medical equipments

## Technical specifications

Voltage	12V/24V/36V/48V/110V/220V/230V/240V/380V/415V/600V
Wattage	Customized
Tube diameter	6mm/8mm/10mm/12mm or customized
Immersion length	200-2000mm
Sheath Material	Stainless steel 304, 316L, 310S,Copper, Titaninum, incoloy800
Welded Elements QTY	1element, 2 element, 3 elements, or under customer request
Screw Thread size	G / NPT / BSP Thread 1" 1 1/4" 1 1/2" 2" 2.5" 3"
Round Flange size	DN50 DN80 DN100 DN120 DN150 DN200 etc
Square Flange size	2.5" x2.5", 3" x 3" or customized
Terminal Cover Material	Stainless steel, Plastic

# OUR CLIENTS

# THANK YOU

## UNIT 1

4 & 5, Marudhar Industrial Estate, Gas Godown Lane, Goddev Fatak Road, Bhayander (E), Dist. Thane - 401105. (India)
