# TWIN TUBE MEDIUM WAVE INFRARED HEATER

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

# ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

# WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

## MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

## VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

# TRUSTED PARTNERS

## Twin Tube Medium Wave Infrared Heater

The Twin Tube Medium Wave Infrared Heater stands out as a highly efficient and versatile heating solution, offering superior heat generation and exchange rates. Its advanced design features twin tubes made of high-quality and pure quartz, allowing for customizable tube formats to suit various lengths and applications. At the core of its design is the ability to produce medium wave infrared radiation, ensuring even heat distribution and eliminating cold patches in any space, whether large industrial areas or smaller workshops. With rapid heat production upon activation, this heater delivers instant warmth by penetrating surfaces, enhancing comfort and saving energy compared to conventional heating systems.

Its adjustable settings and versatile mounting options allow for easy adaptation to different environments, providing precise control over heat output and maximizing efficiency. Crafted with durability in mind, the Twin Tube Medium Wave Infrared Heater is built to withstand prolonged usage in demanding conditions, ensuring reliable performance year after year. Safety is paramount, with sophisticated features such as temperature sensors and overheating prevention mechanisms ensuring dependable operation and peace of mind. Additionally, this heater prioritizes environmental sustainability by reducing energy consumption and carbon emissions through its effective use of infrared radiation, offering an eco-friendly heating solution without compromising comfort or performance.

### Features

- The heating and cooling time is one second approximately.
- They are available with gold reflectors and also without reflectors.
- The outer rear side of the reflector tube is gold coated.
- Power saving by preventing heat loss from the rear end by the reflector.
- Prevention of heat loss makes the surrounding work area cooler.
- Enhanced efficiency and directionality of the heater.

### Advantages

- Efficient and quick heating
- Precision-focused heat distribution
- Versatility for various applications
- Easy integration into different environments
- Health benefits for improved comfort
- Quiet operation and low maintenance
- Environmental sustainability through reduced energy consumption.

### Application

- Shrink Packaging Machines
- Drying Textiles
- Drying of paints
- Lamination Industries
- Rubber Curing
- Processing Plastic foils and sheet

# OUR CLIENTS

# THANK YOU

## UNIT 1

4 & 5, Marudhar Industrial Estate, Gas Godown Lane, Goddev Fatak Road, Bhayander (E), Dist. Thane - 401105. (India)
