Of experience

TWIN TUBE SHORT WAVE INFRARED MODULE

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

TRUSTED PARTNERS

Twin Tube Short Wave Infrared Module

The Twin Tube Short Wave Infrared Module represents a groundbreaking advancement in infrared heating technology, renowned for its unparalleled efficiency and performance across various commercial and industrial applications. Its innovative design incorporates premium quartz tubes, individually calibrated to emit short wave infrared radiation with exceptional consistency and precision. This dual-tube configuration not only enhances heating uniformity but also offers greater versatility in heating patterns and coverage areas. With a sophisticated control system enabling precise adjustment of temperature, intensity, and duration, users can optimize energy consumption while ensuring superior product quality.

Moreover, its seamless integration into existing setups, coupled with robust construction for reliability and longevity, makes it a dependable solution for continuous operation in demanding industrial environments. Safety features and environmental sustainability measures further underscore its appeal, reinforcing its position as a leading choice for efficient, eco-friendly heating solutions.

Features

- The heating and cooling time is 50 second approximately.
- Prevention of heat loss makes the surrounding work area cooler.
- The outer rear side of the reflector tube is gold coated.
- Power saving by preventing heat loss from the rear end by the reflector.
- They are available with gold reflectors and also without reflectors.

Advantages

- Enhanced imaging capabilities in challenging conditions.
- High-resolution imaging for precise analysis.
- Consistent performance
- Early detection of flaws in manufacturing processes.
- Adaptability across industries, from military to agriculture.
- Wide operating wavelength range for versatile applications.

Application

- Paint curing
- Powder coating
- Lacquers drying
- Printing ink
- Drying glaze on ceramic tiles
- Drying Gumming Sheets
- Latex Paper
- Car body works

OUR CLIENTS

THANK YOU

UNIT 1

4 & 5, Marudhar Industrial Estate, Gas Godown Lane, Goddev Fatak Road, Bhayander (E), Dist. Thane - 401105. (India)
